Mr Ngo Tan Quang	Chief Financial Officer
Mr Le Ngoc Hoang	Chief Accountant

2. LEGAL REPRESENTATIVE

The legal representative of the Company during the year and at the date of this report is Mr Tran Ngoc Thanh.

GENERAL INFORMATION

3. BOARD OF MANAGEMENT'S RESPONSIBILITY IN RESPECT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Board of Management is responsible for the consolidated financial statements of each financial year which give a true and fair view of the consolidated financial position of the Company and its subsidiaries (collectively referred to as the "Group") and of the results of its consolidated operations and its consolidated cash flows for the year. In preparing those consolidated financial statements, Board of Management is required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the Interim consolidated financial statements; and
- prepare the Interim consolidated financial statements on the going concern basis unless it is inappropriate to presume that the Group will continue in business.

Board of Management is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the interim consolidated financial position of the Group and to ensure that the accounting records comply with the applied accounting system. It is also responsible for safeguarding the assets of the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Board of Management confirmed that it has complied with the above requirements in preparing the accompanying interim consolidated financial statements.

4. STATEMENT BY BOARD OF MANAGEMENT

Board of Management does hereby state that, in its opinion, the accompanying consolidated financial statements give a true and fair view of the interim consolidated financial position of the Group as at 30 September 2026 and of the results of its interim consolidated operations and its interim consolidated cash flows for the year ended 30 September 2026 in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to the preparation and presentation of the consolidated financial statements.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

1. CORPORATE INFORMATION

Regal Group Joint Stock Company ("the Company") is a shareholding company incorporated under the Law on Enterprise of Vietnam pursuant to the Enterprise Registration Certificate ("ERC") No. 0401414671 issued by the Department of Planning and Investment ("DPI") of Da Nang City on 23 March 2011, as subsequently amended.

The current principal activities of the Company are to provide construction services, trade in real estate properties and render related services.

The Company's registered head office is located at No. 52-54, Vo Van Kiet Street, An Hai Ward, Da Nang City, Vietnam.
The company's typical production and business cycle is 12 months.
The corporate structure as of September 30, 2026 is as follows:

	Business activities	% of ownership	% voting rights
Quang Binh Urban Development One Member Limited Liability Company	Real estate trading and brokerage services	100%	75%
Smart City One Member Company Limited	Real estate trading and brokerage services	100%	100%
Quang Ngai Urban Development One Member Limited Liability Company	Real estate trading and brokerage services	100%	100%
Regal Food Co.,Ltd	Foods retail	100%	100%
Regal Hotels & Resorts One Member Limited Liability Company	Accommodation services	100%	100%

2. BASIS OF PREPARATION

2.1 Fiscal year

The Company's fiscal year applicable for the preparation of its consolidated financial statements starts on 1 January and ends on 31 December.

2.2 Accounting currency

The consolidated financial statements are prepared in VND which is also the Company's accounting currency.

2.3 Comparative Data

Comparative data as of January 1, 2026 are carried over from audited data as of December 31, 2025

3. APPLIED ACCOUNTING STANDARDS AND SYSTEM

3.1. Applicable Accounting Standards and Regulations

The Group applies the Vietnamese accounting system according to Circular No. 99/2025/TT-BTC dated October 27, 2025, of the Ministry of Finance.

The Group 's consolidated financial statements are presented in Vietnamese Dong ("VND") in accordance with the Vietnamese Enterprise Accounting System and Vietnamese Accounting Standards issued by the Ministry of Finance according to:

- Decision No. 149/2001/QD-BTC dated December 31, 2001, on the promulgation of four Vietnamese Accounting Standards (Phase 1);
- Decision No. 165/2002/QD-BTC dated December 31, 2002, on the promulgation of six Vietnamese Accounting Standards (Phase 2);
- Decision No. 234/2003/QD-BTC dated December 30, 2003, on the promulgation of six Vietnamese Accounting Standards (Batch 3);
- Decision No. 12/2005/QD-BTC dated February 15, 2005, on the promulgation of six Vietnamese Accounting Standards (Batch 4); and

- Decision No. 100/2005/QD-BTC dated December 28, 2005, on the promulgation of four Vietnamese Accounting Standards (Batch 5).

On October 27, 2025, the Ministry of Finance issued Circular No. 99/2025/TT-BTC guiding the Enterprise Accounting System ("Circular 99"). Circular 99 replaces the previous guidance on the Enterprise Accounting System under Circular No. 200/2014/TT-BTC dated December 22, 2014 ("Circular 200") and its amending circulars. Circular 99 takes effect from January 1, 2026 and applies to accounting periods beginning on or after January 1, 2026.

The Group has applied the relevant requirements of Circular 99 non-retroactively since January 1, 2026, unless otherwise stipulated in Circular 99. The significant changes in the Company's accounting policies and their impact on the financial statements are presented in the following notes to the financial statements:

Investments held to maturity (Note 6);

Provision for short-term investments held to maturity (Note 6);

Dividends and profits payable (Note 17).

3.2. Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries for the period ended 30 September 2026.

Subsidiaries are fully consolidated from the date of establishment, being the date on which the Group obtains control. and continued to be consolidated until the date that such control ceases.

The financial statements of subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies.

All intra-company balances, income and expenses and unrealised gains or losses result from intra-company transactions are eliminated in full.

Non-controlling interests represent the portion of profit or loss and net assets not held by the Group and are presented separately in the consolidated income statement and within equity in the consolidated balance sheet.

Impact of change in the ownership interest of a subsidiary, without a loss of control, is recorded in undistributed earnings.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

4.1 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash at banks and short-term, highly liquid investments with an original maturity of not more than three months that are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value.

4.2 Inventories

Inventory properties

Property acquired or being constructed for sale in the ordinary course of business, rather than to be held for rental or capital appreciation, is held as inventory property and is measured at the lower of cost and net realized value ("NRV").

Cost includes:

- Freehold and leasehold rights for land;
- Amounts paid to contractors for construction; and
- Borrowing costs, planning and design costs, costs of site preparation, professional fees for legal services, property transfer taxes, construction overheads and other related costs.

NRV is the estimated selling price in the ordinary course of the business, based on market prices at the reporting date and discounted for the time value of money if material, less costs to completion and the estimated costs of sale.

The cost of inventory property recognized in the consolidated income statement on disposal is determined with reference to the specific costs incurred on the property sold and an allocation of any non-specific costs based on the relative size of the property sold.

Other inventories

Inventories are stated at the lower of cost incurred in bringing each product to its present location and condition, and NRV.

NRV represents the estimated selling price in the ordinary course of business less the estimated costs to complete and the estimated costs necessary to make the sale.

The perpetual method is used to record inventories, which are valued as follows:

Construction work-in-progress	-	cost of direct materials and labour plus attributable construction overheads on a weighted average basis
Merchandise	-	cost of purchase on a specific identification basis

Provision for obsolete inventories

An inventory provision is created for the estimated loss arising due to the impairment of value (through diminution, damage, obsolescence, etc) of inventory based on appropriate evidence of impairment available at the balance sheet date.

Increases or decreases to the provision balance are recorded into the cost of goods sold account in the consolidated income statement. When inventories are written off due to expiry, obsolescence, damage or useless, the difference between the provision previously made and the historical cost of inventories are included in the consolidated income statement.

4.3 Receivables

Receivables are presented in the consolidated financial statements at the carrying amounts due from customers and other debtors, after provision for doubtful debts.

The provision for doubtful short-term receivables represents amounts of outstanding receivables at the balance sheet date which are doubtful of being recovered. Increases or decreases to the provision balance are recorded as general and administrative expense in the consolidated income statement. When bad debts are determined as unrecoverable and accountant writes off those bad debts, the differences between the provision for doubtful receivables previously made and historical cost of receivables are included in the consolidated income statement.

4.4 Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of a tangible fixed asset comprises its purchase price and any directly attributable costs of bringing the fixed asset to working condition for its intended use.

Expenditures for additions, improvements and renewals are added to the carrying amount of the assets and expenditures for maintenance and repairs are charged to the consolidated income statement as incurred.

When tangible fixed assets are sold or retired, gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the consolidated income statement.

4.5 Intangible fixed assets

Intangible fixed assets are stated at cost less accumulated amortisation.

The cost of an intangible fixed asset comprises its purchase price and any directly attributable costs of preparing the intangible fixed asset for its intended use.

Expenditures for additions, improvements are added to the carrying amount of the assets and other expenditures are charged to the consolidated income statement as incurred.

When intangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the consolidated income statement.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

4.6 Depreciation and amortisation

Depreciation of tangible fixed assets and amortisation of intangible fixed assets are calculated on a straight-line basis over the estimated useful life of each asset as follows:

Buildings and structures	25 years
Motor vehicles	4 - 7 years
Office equipment	2 - 11 years
Software	5 years
Others	3 - 5 years

Land use rights with indefinite useful life are not amortised.

4.7 Prepaid expenses

Prepaid expenses are reported as short-term or long-term prepaid expenses on the consolidated balance sheet and amortised over the period for which the amounts are paid or the period in which economic benefits are generated in relation to these expenses.

Brokerage fees are recorded as short-term prepaid expenses and recognised consistently with revenue to the consolidated income statement.

4.8 Investments

Provision for diminution in value investments

Provision of the investment is made when there are reliable evidences of the diminution in value of those investments at the balance sheet date.

Increases or decreases to the provision balance are recorded as finance expense in the consolidated income statement.

Held-to-maturity investments

Held-to-maturity investments are stated at their acquisition costs. After initial recognition, held-to-maturity investments are measured at recoverable amount. Any impairment loss incurred is recognised as expense in the consolidated financial statements.

4.9 Deferred expenses

Deferred expenses are recognised for amounts to be paid in the future for goods and services received, whether or not billed to the Company.

4.10 Borrowing costs

Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing costs are recorded as expense during the year in which they are incurred, except to the extent that they are capitalised as explained in the following paragraph.

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that necessarily take a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset.

4.11 Appropriation of net profit

Net profit after tax is available for appropriation to shareholders after approval in the annual general meeting, and after making appropriation to reserve funds in accordance with the Company's Charter and Vietnam's regulatory requirements.

The Company maintains the following reserve funds which are appropriated from the Company's net profit as proposed by the Board of Directors and subject to approval by shareholders at the annual general meeting:

- *Investment and development fund*
- This fund is set aside for use in the Company's expansion of its operation or of in-depth investments.
- *Bonus and welfare fund*

This fund is set aside for the purpose of pecuniary rewarding and encouraging, common benefits and improvement of the employees' benefits, and presented as a liability on the consolidated balance sheet.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

4.12 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, excluding trade discount, rebate and sales return. The following specific recognition criteria must also be met before revenue is recognised:

Sale of town houses and apartments

For town houses and apartments sold after completion of construction, the revenue and associated costs are recognised when the significant risks and rewards of ownership of the town houses and apartments have passed to the buyers.

Construction contracts

For the construction contracts specifying that the contractor will receive payments according to the completed work, where the outcome of a construction contract can be determined reliably and accepted by the customers, revenue and costs are recognised by reference to the stage of completion of the contract activity at the balance sheet date which is accepted by the customers and reflected in the sales invoices.

Variations in contract work, claims and incentive payments are included to the extent that they have been agreed with the customer.

Where the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that it is probable will be recoverable. Contract costs are recognised as expenses in the year in which they are incurred.

Rendering of real estate brokerage services and office leasing

Revenue is recognised when services have been rendered and completed.

Interest

Revenue is recognised as the interest accrues (taking into account the effective yield on the asset) unless collectability is in doubt.

Dividends

Income is recognised when the Company's entitlement as an investor to receive the dividend is established.

Periodic rental income

Rental income arising from operating leases is accounted for on a straight line basis over the terms of the lease.

4.13 Taxation

Current income tax

Current income tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted as at the balance sheet date.

Current income tax is charged or credited to the consolidated income statement, except when it relates to items recognized directly to equity, in which case the current income tax is also dealt with in equity.

Current income tax assets and liabilities are offset when there is a legally enforceable right for the Company to off-set current tax assets against current tax liabilities and when the Company intends to settle its current tax assets and liabilities on a net basis.

Deferred tax

Deferred tax is provided using the liability method on temporary differences at the balance sheet date between the tax base of assets and liabilities and their carrying amount for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, carried forward unused tax credit and unused tax losses, to the extent that it is probable that taxable income will be available against which deductible temporary differences, carried forward unused tax credit and unused tax losses can be utilised.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax asset to be utilised. Previously unrecognized deferred tax assets are re-assessed at each balance sheet date and are recognized to the extent that it has become probable that future taxable income will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled based on tax rates and tax laws that have been enacted at the balance sheet date.

Deferred tax is charged or credited to the consolidated income statement, except when it relates to items recognised directly to equity, in which case the deferred tax is also dealt with in the equity account.

Deferred tax assets and liabilities are offset when there is a legally enforceable right for the Company to offset current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority on the same taxable entity.

4.14 Earnings per share

Basic earnings per share amounts are calculated by dividing net profit/(loss) after tax for the period attributable to ordinary shareholders of the Group (after adjusting for the bonus and welfare fund) by the weighted average number of ordinary shares outstanding during the period.

Diluted earnings per share amounts are calculated by dividing the net profit after tax attributable to ordinary shareholders of the Group (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the period plus the weighted average number of ordinary shares that would be issued on conversion of all dilutive potential ordinary shares.

4.15 Related parties

Parties are considered to be related parties of the Group if one party has the ability to, directly or indirectly, control the other party or exercise significant influence over the other party in making financial and operating decisions, or when the Group and other party are under common control or under common significant influence. Related parties can be enterprises or individuals, including close members of their families
