VIETNAM ELECTRONICS AND INFORMATICS JOINT STOCK CORPORATION

No: 386 CV/DT-TCKT
(Re: Explanation of changes in profit after tax in the reviewed interim financial statements for the first six months of 2026)

SOCIALIST REPUBLIC OF VIETNAM
Independence - Freedom - Happiness

Hanoi, 28 August 2026

To: - The State Securities Commission of Vietnam
- The Hanoi Stock Exchange

Name of organization: Vietnam Electronics and Informatics Joint Stock Corporation

Stock code: VEC

Trading venue: UPCoM

Pursuant to Article 14 of Circular No. 96/2020/TT-BTC dated 16 November 2020 of the Minister of Finance providing guidance on disclosure of information on the securities market, as amended and supplemented, Vietnam Electronics and Informatics Joint Stock Corporation (the "Corporation") hereby provides an explanation of the changes in profit after tax in its reviewed interim financial statements for the first six months of 2026 as follows:

1. Change in profit after tax compared with the same period of the previous year

Profit after tax for the first six months of 2025 was negative VND 11,914 million, while profit after tax for the first six months of 2026 was VND 8,448 million. Accordingly, profit after tax for the current period increased by VND 20,362 million compared with the same period of the previous year, representing a turnaround from loss to profit.

The change was mainly attributable to the Corporation's organizational restructuring, expansion of business operations, strengthened management and cost-saving measures, together with increases in finance income and other profit.

2. Difference in profit after tax before and after review

Profit after tax in the interim financial statements for the first six months of 2026 was negative VND 41,867 million before review and VND 8,448 million after review. Accordingly, profit after tax after review increased by VND 50,315 million compared with the pre-review figure, representing a turnaround from loss to profit.

The difference was mainly attributable to a downward adjustment of VND 49,078 million in finance costs after review, principally relating to the adjustment of the provision for impairment of long-term financial investments in a subsidiary. Finance income was also adjusted upward by VND 1,783 million compared with the pre-review figure.

Vietnam Electronics and Informatics Joint Stock Corporation hereby reports the above information to the State Securities Commission of Vietnam, the Hanoi Stock Exchange, shareholders and investors.

The Corporation confirms that the information disclosed above is true and complete and assumes full legal responsibility for the disclosed information.

Yours faithfully,

Recipients:
- As stated above;
- Archives: Administration, Finance and Accounting Department.
