To : - THE STATE SECURITIES COMMISSION

- HA NOI STOCK EXCHANGE

Under Circular No. 96/2020/TT-BTC dated November 16, 2020, of the Ministry of Finance provides guidelines on the disclosure of information on the securities market.

Accordingly, the Company must explain if the profit after tax in the reporting period changes by 10% or more compared to the same period of the previous year.

Based on the Consolidated company's interim business results for 2026, which were reviewed by the auditing firm, Viet Tien Garment Corporation (Stock Symbol: VGG) provides the following explanation:

Consolidated profit after tax reached 234 billion VND, an increase of 17% compared to the prior-year.

Main reason :

- As Selling expenses decreased by VND 14.7 billion (- 6%), administrative expenses decreased by VND 5.7 billion (- 4%), due to the Company's cost-saving initiatives.
- Financial expenses decreased by VND 34.6 billion, mainly due to a reduction in foreign exchange losses.

This is the Corporation’s explanation of the variance in Consolidated interim profit after tax compared to the prior-year.

Sincerely.
