## **REVIEW REPORT ON FINANCIAL SAFETY RATIO REPORT**

### **To the Board of Directors**

### **Dragon Capital Vietfund Management Joint Stock Company**

We have reviewed the accompanying Financial Safety Ratio Report of Dragon Capital Vietfund Management Joint Stock Company ("the Company") as of 30 June 2026 including the explanatory notes ("Financial Safety Ratio Report") thereto which was authorised for issue by the Company's Board of Management on 14 August 2026, as set out on pages 5 to 30.

### **Management's Responsibility**

The Company's Board of Management is responsible for the preparation and presentation of the Financial Safety Ratio Report in accordance with the requirements of Circular No. 91/2020/TT-BTC dated 13 November 2020 issued by the Ministry of Finance regulating financial safety ratios and measures for non-compliance applicable to securities business organisations ("Circular 91") and Circular No. 102/2025/TT-BTC dated 29 October 2025 issued by the Ministry of Finance amending and supplementing a number of articles of Circular 91, and for such internal control as the Board of Management determines is necessary to enable the preparation of the Financial Safety Ratio Report that is free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express a conclusion on the Financial Safety Ratio Report based on our review. We conducted our review in accordance with Vietnamese Standard on Review engagements No. 2410 – *Review of interim financial information performed by the independent auditor of the entity*.

A review of the Financial Safety Ratio Report consists of making inquiries, primarily of persons responsible for relevant matters to the Financial Safety Ratio Report, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## Auditor's Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the Financial Safety Ratio Report of Dragon Capital Vietfund Management Joint Stock Company as of 30 June 2026 is not prepared, in all material respects, in accordance with the requirements of Circular No. 91/2020/TT-BTC dated 13 November 2020 issued by the Ministry of Finance regulating financial safety ratios and measures for non-compliance applicable to securities business organisations ("Circular 91") and Circular No. 102/2025/TT-BTC dated 29 October 2025 issued by the Ministry of Finance amending and supplementing a number of articles of Circular 91.

## Basis of Preparation and Restriction on Use

We draw attention to Note 2 to the Financial Safety Ratio Report, which describes the basis of preparation of the Financial Safety Ratio Report. The Financial Safety Ratio Report has been prepared to enable the Company to comply with the requirements of Circular No. 91/2020/TT-BTC dated 13 November 2020 issued by the Ministry of Finance regulating financial safety ratios and measures for non-compliance applicable to securities business organisations ("Circular 91") and Circular No. 102/2025/TT-BTC dated 29 October 2025 issued by the Ministry of Finance amending and supplementing a number of articles of Circular 91 ("Circular 102"). As a result, the Financial Safety Ratio Report may not be suitable for another purpose. Our report is intended solely for the Company's submission to the State Securities Commission of Vietnam and disclosure of information as required by Circular 91 and Circular 102 and should not be used for any other purposes. Our conclusion is not modified in respect of this matter.

*The accompanying notes are an integral part of this Financial Safety Ratio Report*

# **Dragon Capital Vietfund Management Joint Stock Company**

## **Notes to the Financial Safety Ratio Report as of 30 June 2026**

These notes form an integral part of and should be read in conjunction with the accompanying Financial Safety Ratio Report.

### **1. Reporting entity**

#### **(a) Ownership structure**

Dragon Capital Vietfund Management Joint Stock Company (“the Company”) is a joint stock company incorporated in Vietnam under Investment Licence No. 01/GPDT-UBCKNN issued by the State Securities Committee of Vietnam (“the SSC”) on 15 July 2003. The Establishment and Operation Licence and its amendments are valid for 50 years from 8 January 2009 which is the issuance date of the Establishment and Operation License No. 45/UBCK-GP.

As at 30 June 2026 and 31 December 2025, the Company’s charter capital was VND312,011 million.

The shares of the Company have been registered for trading in the Unlisted Public Company Market (“UPCoM”) since 19 January 2026 with the ticker symbol as DCV.

#### **(b) Principal activities**

The principal activities of the Company are to provide securities investment fund management service, securities investment portfolio management service, securities investment consultancy and voluntary supplemental pension fund management service.

#### **(c) Normal business cycle**

The normal business cycle of the Company is generally within 12 months.

#### **(d) Company’s structure and headcounts**

As at 30 June 2026, the Company had 1 subsidiary (31/12/2025: 0 subsidiary).

As at 30 June 2026 and 31 December 2025, the Company has one (1) Head office in Ho Chi Minh City and one (1) Branch in Hanoi.

As at 30 June 2026, the Company had 160 employees (31/12/2025: 189 employees), of which 47 employees (31/12/2025: 52 employees) who were qualified for fund and asset management.

### **2. Basis of preparation of the Financial Safety Ratio Report**

#### **(a) Statement of compliance**

The Financial Safety Ratio Report has been prepared to enable the Company to comply with the requirements of Circular No. 91/2020/TT-BTC dated 13 November 2020 issued by the Ministry of Finance regulating financial safety ratios and measures for non-compliance applicable to securities business organisations (“Circular 91”) and Circular No. 102/2025/TT-BTC dated 29 October 2025 issued by the Ministry of Finance amending and supplementing a number of articles of Circular 91 (“Circular 102”). Accordingly, the Financial Safety Ratio Report and its utilisation are not designed for those who are not informed about the principles and requirements of Circular 91 and Circular 102 on preparation and presentation of Financial Safety Ratio Report applicable to securities business organisations in Vietnam. As a result, the Financial Safety Ratio Report may not be suitable for another purpose.

**Dragon Capital Vietfund Management Joint Stock Company**  
**Notes to the Financial Safety Ratio Report as of 30 June 2026 (continued)**

**(b) Underlying financial data**

The Financial Safety Ratio Report was prepared based on the Company's financial data as of 30 June 2026 and for the twelve-month period then ended. This Financial Safety Ratio Report should be read in conjunction with the Company's reviewed separate interim financial statements for the six-month period ended 30 June 2026.

**(c) Accounting and presentation currency**

The Company's accounting currency is Vietnam Dong ("VND"), which is also the currency used for presentation purpose of Financial Safety Ratio Report.

**3. Summary of significant policies adopted in the preparation of the Financial Safety Ratio Report**

The following significant policies have been adopted by the Company in the preparation of this Financial Safety Ratio Report.

**(a) Liquid capital ratio**

The Company's liquid capital ratio is calculated in accordance with the requirements of Circular 91 as follows:

$$\text{Liquid capital ratio} = \frac{\text{Liquid capital}}{\text{Total risk value}} \times 100\%$$

In which, total risk value is the aggregate of market risk value (Note 3(c)), settlement risk value (Note 3(d)) and operational risk value (Note 3(e)).

**(b) Liquid capital**

Liquid capital is the capital which can be converted into cash within 90 days. The Company's liquid capital includes the following items:

- Owner's investment equity, excluding redeemable preference shares (if any);
- Capital surplus, excluding redeemable preference shares (if any);
- Reserve to supplement charter capital;
- Investment and development funds (if any);
- Financial reserve;
- Other equity funds;
- Realised retained profits;
- Allowance for diminution in the value of assets;
- 50% of upward revaluation value of fixed assets, if any, in accordance with the prevailing regulations (in case of upward valuation), or subtract the reduction value (in the case downward valuation);
- Foreign exchange difference; and
- Other capital (if any).

**Dragon Capital Vietfund Management Joint Stock Company**  
**Notes to the Financial Safety Ratio Report as of 30 June 2026 (continued)**

Additions to the Company's liquid capital include the following items:

- All increases in the values of investments, financial assets stated at book value, excluding securities issued by related parties of the Company as well as securities with the remaining restricted trading period exceeding 90 days at the reporting date;
- Convertible bonds and preference shares issued by the Company with the original terms to maturity of at least five (5) years, unsecured by assets of the Company, not redeemable prior to maturity, or redeemable prior to maturity only where the bond terms stipulate that the issuer may redeem the bonds early at the request of the bondholders or through repurchase on the secondary market, provided that such repurchase of convertible bonds is carried out in compliance with the regulations on convertible bond repurchase and after the Company has reported to the State Securities Commission of Vietnam, stopped paying interest and of which the accumulated interest is transferred to the following year if the interest payment results in the Company's loss and registered with the State Securities Commission of Vietnam to supplement the liquid capital; and
- Other unsecured debt instruments issued by the Company with the original terms to maturity of more than ten (10) years; stopped paying interest and of which the accumulated interest is transferred to the following year if the interest payment results in the Company's loss and registered with the State Securities Commission of Vietnam to supplement the liquid capital.

For debts being convertible into equity and registered with the State Securities Commission of Vietnam to supplement the liquid capital, the Company deducts 20% of original value each year during the last five (5) years before maturity/conversion date into ordinary shares and deducts 25% of the remaining value for each quarter in the last four (4) quarters before maturity/conversion date into ordinary shares.

Value of items used to supplement the liquid capital is capped at 50% of the Company's equity.

Deductions from the Company's liquid capital include the following items:

- All decreases in the values of investments, excluding securities issued by related parties of the Company and securities with the remaining restricted trading period exceeding 90 days at the reporting date; on the basis of the difference between the carrying amount and the market value.
- Long-term assets;
- Current assets, including securities issued by related parties of the Company and securities with the remaining restricted trading period exceeding 90 days from the reporting date; prepayments; receivables with the payback period or remaining maturity of over ninety (90) days; advances with outstanding settlement periods exceeding 90 days; other current assets;
- Asset items having qualified, adverse or disclaimer opinion in the audited/reviewed financial statements (if any);
- Treasury shares (if any); and
- The entire loss calculated based on the contractual value in the event that the counterparty is insolvent.

When determining the deductions from liquid capital, the Company deducts from the liquid capital an amount equal to the minimum value of the market value of the assets, the book value and the residual value of the obligations (for the assets used as collaterals for the obligations of the Company and third parties) and the minimum value of the market value of the collaterals and the book value (for the assets secured by customers' assets).

**Dragon Capital Vietfund Management Joint Stock Company**  
**Notes to the Financial Safety Ratio Report as of 30 June 2026 (continued)**

**(c) Market risk value**

Market risk value is the value corresponding to the level of loss which may occur if the market value of assets changes unfavourably. Market risk value is determined in accordance with the requirements of Circular 91 as follows:

$$\text{Market risk value} = \text{Net position} \times \text{Asset value} \times \text{Market risk coefficient}$$

In which, net position of any securities at a point of time is the quantity of securities currently held by the Company, after deducting the number of securities lent out and adding the number of securities borrowed in accordance with the prevailing regulations.

The market risk value excludes the market value of following securities and assets:

- Treasury shares;
- Securities issued by related parties of the Company;
- Securities with the remaining restricted trading period exceeding 90 days at the reporting date;
- Matured bonds, matured debt instruments and matured money market valuable papers; and
- Securities being hedged by call warrants or futures contracts, call warrants and call warrants contracts used to hedge the underlying securities.

**(i) Asset value**

Asset value is determined in accordance with the principles for determining market value in Circular 102, as follows:

| No.                                                        | Type of asset                                                                                                                             | Principles for determining market value                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

**(ii) Market risk coefficient**

Market risk coefficient is determined for each type of asset in accordance with the requirements of Circular 102 as disclosed in Note 4.

**(iii) Increase in market risk value**

The market risk value of each asset will be adjusted upward if the Company significantly invests in such asset, except for secured underwriting securities, Government bonds and bonds guaranteed by the Government. Market risk value is adjusted upward in accordance with the following principles:

- Increase by 10% if the value of any investment in securities, contributed capital of an organisation accounts for more than 10% up to 15% of the Company's equity;
- Increase by 20% if the value of any investment in securities, contributed capital of an organisation accounts for more than 15% up to 25% of the Company's equity; and
- Increase by 30% if the value of any investment in securities, contributed capital of an organisation accounts for more than 25% of the Company's equity.

Dividends, coupons, value of privileged rights of securities (if any) or interest receivables from cash and cash equivalents, transferrable instruments and valuable papers are added to the asset value when determining the market risk value.

**Dragon Capital Vietfund Management Joint Stock Company**  
**Notes to the Financial Safety Ratio Report as of 30 June 2026 (continued)**

**(d) Settlement risk value**

Settlement risk value is the value corresponding to the level of loss which may occur if a counterparty is unable to settle obligations or transfer assets on time as committed. Settlement risk value is determined at the end of transaction date or contract date as follows:

- Settlement risk value before the due date for transfer of securities, cash and liquidation of contract is determined in accordance with the following principle:

$$\text{Settlement risk value before due date} = \text{Value of the asset with potential settlement risk} \times \text{Settlement risk coefficient by counterparty}$$

The above principle to determine settlement risk value before due date is applicable for the following contracts:

- Term deposits at credit institutions, certificates of deposit issued by credit institutions, and cash maintained in the Company's securities trading account opened at a securities company;
  - Securities lending contracts and securities borrowing contracts in compliance with laws;
  - Repurchase agreements in compliance with laws;
  - Reverse repurchase agreements in compliance with laws;
  - Margin loan contracts in compliance with laws; and
  - Accounts receivable relating to securities activities in accordance with law, and receivables from the sale of listed securities in financial investment activities of the Company.
- Overdue settlement risk value is determined in accordance with the following principle:

$$\text{Overdue settlement risk value} = \text{Value of the asset with potential settlement risks} \times \text{Settlement risk coefficient by overdue status}$$

The above principle to determine the overdue settlement risk value shall be applied to overdue receivables and securities which are not transferred on time, including securities and cash not yet received from the following contracts, transactions:

- Term deposits at credit institutions, deposit certificates of deposits issued by credit institutions, and cash maintained in the Company's securities trading account opened at a securities company;
- Securities lending contracts and securities borrowing contracts in compliance with laws;
- Repurchase agreements in compliance with laws;
- Reverse repurchase agreements in compliance with laws;
- Margin loan contracts in compliance with laws;
- Accounts receivable relating to securities activities in accordance with law, and receivables from the sale of listed securities in financial investment activities of fund management companies;
- Overdue accounts receivable, including matured bonds, valuable papers, debt instruments not yet redeemed on maturity date; and
- Assets beyond the time of transfer, including securities of the Company, securities of customers relating to securities brokerage activities.

**Dragon Capital Vietfund Management Joint Stock Company**  
**Notes to the Financial Safety Ratio Report as of 30 June 2026 (continued)**

- For contracts, transactions, and uses of funds other with potential settlement risk value; repurchase and resale agreements of securities or similar agreements, receivables from debt trading transactions with counterparties other than the Vietnam Asset Management Company (VAMC) and the Vietnam Debt and Asset Trading Corporation (DATC), the settlement risk value is determined according to the following formula:
  - Deposit agreements or agreements for purchasing real estate, and economic agreements of similar nature: Settlement risk value = Deposit amount  $\times$  150%
  - Loans and receivables from customers (excluding loans for margin trading in listed securities or receivables in securities trading activities in accordance with the law on receivables when selling listed securities in the financial investment activities of the Company): Settlement risk value = Loan and receivable amount  $\times$  150%
  - Other contracts or transactions:  
 Settlement risk value = Total value of assets potential exposed to settlement risk  $\times$  100%.
- For advances with remaining term under 90 days is determined in accordance with the following principle:

$$\text{Settlement risk} = \frac{\text{Value of the asset with settlement risk}}{\text{settlement risk}} \times \text{Settlement risk coefficient}$$

The value of assets with settlement risk is the total value of advances. The settlement risk coefficient is 8% when the total value of advances accounts for from 0% up to 2% of equity; 50% when the total value of advances accounts for more than 2% to less than 5% of equity; and 100% when the total value of advances accounts for 5% or more of equity as at the reporting date.

**(i) Settlement risk coefficient**

In accordance with the requirements of Circular 91, settlement risk coefficient by counterparty is as follows:

| No. | Counterparty                                                                                                                                                                                                                                       | Settlement risk coefficient |

| 1                                                                                                                    | Before the due date for securities transfer | Nil                                                                                     |
| 2                                                                                                                    | After the due date for securities transfer  | Market value of the contract (if the market value is higher than the transaction price) |
|                                                                                                                      |                                             | Nil (if the market value is lower than the transaction price)                           |

➤ *Settlement risk values of accounts receivable, bonds and debt instruments in due are the underlying amounts including par value and accrued interest and fees, less actual cash previously received (if any).*

**(iii) Deductions from the value of assets with potential settlement risk**

The Company deducts the value of collateral assets received from counterparties or customers from the value of assets with settlement risk when determining the value of assets with potential settlement risks if the contracts and transactions meet the following criteria:

- The counterparties, customers have collateral assets to secure for their obligations including cash, cash equivalents, valuable papers, transferable money market instruments, listed securities on the Vietnam Stock Exchanges and its subsidiaries (collectively Stock Exchange), Government bonds, or bonds underwritten by the Ministry of Finance; and
- The Company has the right to control, manage, use or transfer the collateral assets if the counterparties fail to settle the obligations according to the contractual schedules.

Value of collateral assets deducted from the value of assets with potential settlement risk is calculated as follows:

$$\text{Value of collateral assets} = \text{Asset quantity} \times \text{Unit price} \times (1 - \text{Market risk coefficient})$$

Asset value is determined in accordance with the requirements of Circular 102 as described in Note 3(c)(i).

Market risk coefficient is determined in accordance with the requirements of Circular 102 as disclosed in Note 4.

**Dragon Capital Vietfund Management Joint Stock Company**  
**Notes to the Financial Safety Ratio Report as of 30 June 2026 (continued)**

**(iv) Increase in settlement risk value**

Settlement risk values are adjusted upward in the following cases:

- Increase by 10% if the value of term deposits, deposit certificates, loans, undue receivables, reverse repurchase agreements, repurchase agreements to any organisation or individual and group of related organisations and individuals (if any) accounts for more than 10% up to 15% of the Company's equity;
- Increase by 20% if the value of term deposits, deposits certificates, loans, undue receivables, reverse repurchase agreements, repurchase agreements to any organisation or individual and group of related organisations and individuals (if any), accounts for more than 15% up to 25% of the Company's equity; and
- Increase by 30% if the value of term deposits, deposits certificates, loans, undue receivables, reverse repurchase agreements, repurchase agreements to any organisation or individual and group of related organisations and individuals (if any), or to any individuals and entities related to such individuals (if any), accounts more than 25% or more of the Company's equity.

**(v) Netting off value of assets with potential settlement risk**

The value of assets with potential settlement risk is netted off if:

- The settlement risk is related to the same counterparty;
- The settlement risk arises from the same type of transactions; and
- The netting off is agreed by the parties in writing.

**(e) Operational risk value**

Operational risk value is the value corresponding to the level of loss which may occur due to a technical or system error, human error during the operations, shortage of capital arising from expenses, losses from investment activities, or other objective reasons.

The operational risk value of the Company is calculated at the higher of:

- 25% of expenses for calculating operational risk for the last 12 months until the reporting date; and
- 20% of its minimum charter capital applicable to operating activities of securities business organization in compliance with laws.

Expenses for calculating operational risk include all costs incurred during the period after deducting:

- Depreciation and amortisation expenses;
- Additions to/(reversals of) allowance for diminution in the value of short-term financial investments;
- Additions to/(reversals of) allowance for diminution in the value of long-term financial investments;
- Additions to/(reversals of) allowance for doubtful debts;
- Unrealized foreign exchange gain or loss; and
- Other non-cash expenses in the business activities of the Company.
