To: **- State Securities Commission of Vietnam (SSC)**
- Hanoi Stock Exchange (HNX)

Pursuant to the interim financial statements for the accounting period ending 30 June 2026 of Cai Lay Veterinary Pharmaceutical Joint Stock Company, the Profit after Corporate Income Tax (CIT) for the first 6 months of 2026 was VND 2.219.703.862, compared to VND 4.227.037.674 in the same period of 2025, representing a decrease of VND 2.007.333.812. The Company would like to provide the following explanation for the decrease in profit after tax:

- The complex development of animal diseases has reduced the scale of livestock farming and decreased the demand for veterinary drugs.
- Many new businesses have entered the market, increasing competition in terms of selling prices and trade policies.
- Additional investment in personnel is needed to exploit untapped markets.

The above factors are the main contributors to the decrease in net profit after corporate income tax for the first 6 months of 2026 compared to the same period in 2025.

We hereby confirm that the information disclosed above is accurate and truthful. We assume full legal responsibility for the content of this disclosure.

Respectfully yours./.
