*Regarding the explanation about the profit for the
third quarter of 2026*

To:

- The State Securities Commission;
- Hanoi Stock Exchange.

IDICO Srok Phu Mieng Hydropower Joint Stock Company has thanked for the interest and support of the State Securities Commission and Hanoi Stock Exchange for along time.

According to the regulations of Circular 96/2020/TT-BTC dated November 16, 2020, IDICO Srok Phu Mieng Hydropower Joint Stock Company (IDICO-SHP) explains that the business results for the third quarter of 2026 and the after-tax corporate income profit for the third quarter of 2026 decreased by over 10% compared to the third quarter of 2025, specifically as follows:

The after-tax corporate income profit in the third quarter of 2026 of the company is 27,270 million VND, a decreased of 8,634 million VND, corresponding to a decreased of 24% compared to the third quarter of 2025. The reasons are as follows:

- In the third quarter of 2026, the water inflow to the Srok Phu Mieng hydropower reservoir was lower than the same period in 2025; therefore, the Company's electricity production and revenue for the third quarter of 2026 were lower than the same period in 2025 (*the electricity revenue was 58,276 million VND, a decreased of 14,403 million VND, corresponding to a decreased of 20% compared to the same period in 2025*);

- The company's revenue primarily comes from electricity production activity; therefore, the impact of weather conditions is the most significant factor affecting the overall business operations of the company.

The above is the explanation from IDICO-SHP.

Sincerely.
