No. 36/CBTT-MKV

Dong Thap, 19th October, 2026

Report: Explanation for the decrease
in Profit after Corporate Income Tax
(CIT) in Q3.2026 by over 10%
compared to the same period in 2025

To:

- State Securities Commission of Vietnam (SSC)**
- Hanoi Stock Exchange (HNX)**

Pursuant to the Q3.2026 financial statements of Cai Lay Veterinary Pharmaceutical Joint Stock Company, the Profit after Corporate Income Tax (CIT) in Q3.2026 was VND 2.045.783.933, compared to VND 5.689.491.204 in the same period of 2025, representing a decrease of VND 3.643.707.271. The Company would like to provide the following explanation for the decrease in profit after tax:

- Complex developments in livestock disease outbreaks have led to a reduction in the scale of animal husbandry and a decline in the demand for veterinary medicines.
- The entry of many new businesses has intensified competition regarding pricing and commercial policies.
- Additional personnel are being recruited to tap into previously unaddressed market segments

The above factors are the main contributors to the decrease in net profit after corporate income tax in quarter III 2026 compared to the same period in 2025.

We hereby confirm that the information disclosed above is accurate and truthful. We assume full legal responsibility for the content of this disclosure.

Respectfully yours./.
