STATEMENT OF THE BOARD OF MANAGEMENT (Continued)

THE BOARD OF MANAGEMENT'S STATEMENT OF RESPONSIBILITY

The Board of Management of the Bank is responsible for preparing the interim separate financial statements, which give a true and fair view of the separate financial position of the Bank as at 30 June 2026 and its separate financial performance and its cash flows for the 6-month period then ended in accordance with Vietnamese Accounting Standards, accounting regime applicable to credit institutions in Vietnam and legal regulations relating to interim separate financial reporting. In preparing these interim separate financial statements, the Board of Management is required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgments and estimates that are reasonable and prudent;
- State whether applicable accounting principles have been followed, subject to any material departures disclosed and explained in the interim separate financial statements;
- Prepare the interim separate financial statements on the going concern basis unless it is inappropriate to presume that the Bank will continue its business; and
- Design and implement an effective internal control system for the purpose of properly preparing and presenting the interim separate financial statements so as to minimize errors and frauds.

The Board of Management is responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the financial position of the Bank, and that the interim separate financial statements comply with Vietnamese Accounting Standards, accounting regime applicable to credit institutions in Vietnam and legal regulations relating to interim financial reporting. The Board of Management is also responsible for safeguarding the assets of the Bank and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

The Board of Management confirms that the Bank has complied with the above requirements in preparing these interim separate financial statements.

For and on behalf of the Board of Management,

Nguyễn Thị Quỳnh Giao

Senior Executive Vice President

*(Authorized under the Decision No.5215/QĐ-BIDV
dated 01 July 2026 by the Legal Representative)*

Hanoi, 14 August 2026

REPORT ON REVIEW OF INTERIM SEPARATE FINANCIAL STATEMENTS

To: The Shareholders
The Board of Directors and Board of Management
Joint Stock Commercial Bank for Investment and Development of Vietnam

We have reviewed the accompanying interim separate financial statements of Joint Stock Commercial Bank for Investment and Development of Vietnam (the "Bank"), prepared on 14 August 2026 as set out from page 04 to page 48, which comprise the interim separate statement of financial position as at 30 June 2026, the interim separate statement of profit or loss and the interim separate cash flow statement for the 6-month period then ended, and a summary of significant accounting policies and other explanatory information.

Board of Management's Responsibility

The Bank's Board of Management is responsible for the preparation and fair presentation of these interim separate financial statements in accordance with Vietnamese Accounting Standards, accounting regime applicable to credit institutions in Vietnam and legal regulations relating to interim financial reporting and for such internal control as the Board of Management determines is necessary to enable the preparation of interim separate financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express a conclusion on these accompanying interim separate financial statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review Engagements No. 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity.

A review of interim separate financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim separate financial statements do not present fairly, in all material respects, the financial position of the Bank as at 30 June 2026, and its financial performance and its cash flows for the 6-month period then ended in accordance with Vietnamese Accounting Standards, accounting regime applicable to credit institutions in Vietnam and legal regulations relating to interim financial reporting.

10	Cambodia - Vietnam Insurance Plc. (*)	Registration No. 6037/09E dated 6 August 2009 issued by the Ministry of Commerce of Cambodia, and the latest amendment No. 00036519 dated 23 April 2015 issued by the Ministry of Commerce of Cambodia.	Insurance	26.01%

(*) Indirectly owned through subsidiaries.

Associates

As at 30 June 2026, the Bank has two (02) associates as follows:

No.	Name	Established in accordance with Decision/License No.	Business sector	Proportion of ownership
1	Vietnam Aircraft Leasing JSC ("VALC")	0102384108 dated 08 October 2007 by Hanoi Authority for Planning and Investment and 16 th Amendment dated 02 November 2023	Aircraft purchasing and leasing	18.52%
2	Cambodia - Viet Nam Foods Company Ltd. ("Cavifood") (*)	Inv.0810M/2010 dated 21 April 2010 by the Ministry of Commerce in Phnom Penh, Cambodia	Trading food and agricultural products	32.51%

(*) Indirectly owned through subsidiaries.

Joint ventures

As at 30 June 2026, the Bank has three (03) joint ventures as follows:

No.	Name	Established in accordance with Decision/License No.	Business sector	Proportion of ownership
1	Vietnam-Russia J.V. Bank ("VRB")	Establishment and Operation License No. 11/GP-NHNN dated 30 June 2006, issued by the State Bank of Vietnam, and replaces by the Establishment and Operation License No. 88/GP dated 18 September 2018 and Decision No. 756/QD-TTGSNH1 dated 12 December 2024 amending the charter capital in License No. 88/GP	Banking	49.50%
2	BIDV Tower J.V. Company ("BIDV Tower")	2523/GP dated 02 November 2005 by the Ministry of Planning and Investment	Office construction, operation and management	55.00%
3	BIDV Metlife Life Insurance Limited Company ("BIDV Metlife") (*)	72/GPDC5-KDBH dated 28 August 2025 by the Ministry of Finance	Insurance	37.25 %

(*) In which, direct proportion of ownership of BIDV and BIC in BIDV Metlife is 35.02% and 4.37% respectively.

Disclosure of information comparability in the interim separate financial statements

The comparative figures of the interim separate statement of financial position and the corresponding notes are the figures of the audited separate financial statements for the financial year ended 31 December 2025. The comparative figures of the interim separate statement of profit or loss, the interim separate cash flow statement and the corresponding notes are the figures of the reviewed interim separate financial statements for the 6-month period ended 30 June 2025.

2. ACCOUNTING CONVENTION AND ACCOUNTING PERIOD

Accounting convention

The accompanying interim separate financial statements, expressed in Vietnamese Dong (VND), are prepared under the historical cost convention and in accordance with Vietnamese Accounting Standards, accounting regime applicable to credit institutions in Vietnam and legal regulations relating to interim separate financial reporting. However, due to the Bank's large scale of operation, for the purpose of preparing these interim separate financial statements, the figures are rounded to and presented in millions of Vietnamese Dong (VND million). This presentation does not materially impact the interim separate financial statements in terms of the financial position, the results of operations and cash flows of the Bank. With regard to the number of shares and basic earnings per share, the Bank presented the items in unit as stated in Note 19.2.

The accompanying interim separate financial statements are not intended to present the financial position, results of operations and cash flows in accordance with accounting principles and practices which are generally accepted in countries and jurisdictions other than Vietnam.

Accounting period

The Bank's financial year begins on 01 January and ends on 31 December. The accompanying interim separate financial statements were prepared for the 6-month period ended 30 June 2025.

3. APPLICATION OF NEW GUIDELINES

Application of new guidance

Law No.56/2024/QH15 dated 29 November 2024

On 29 November 2024, the National Assembly issued Law No. 56/2024/QH15 ("Law No. 56") amending and supplementing certain articles of the Law on Securities, the Law on Accounting, the Law on Independent Audit, the Law on State Budget, the Law on Management and Use of Public Property, the Law on Tax Administration, the Law on Personal Income Tax, the Law on National Reserves, and the Law on Handling of Administrative Violations. Law No. 56 shall take effect from 1 January 2025, except for certain provisions which take effect from 1 April 2025 and 1 January 2026.

Circular No. 70/2025/TT-NHNN dated 31 December 2025.

On 31 December 2025, the State Bank of Vietnam issued Circular No. 70/2025/TT-NHNN ("Circular 70"), amending and supplementing certain provisions of legal documents in the field of accounting. Circular 70 amends and supplements certain provisions of Decision No. 479/2004/QĐ-NHNN on the promulgation of the accounting system for credit institutions and Decision No. 1789/2005/QĐ-NHNN on the promulgation of the banking accounting voucher regime. Circular 70 took effect on 1 January 2026.

New guidance in issue but not yet effective

Circular No. 29/2026/TT-NHNN dated 30 June 2026

On 30 June 2026, the State Bank of Vietnam (SBV) issued Circular No. 29/2026/TT-NHNN ("Circular 29") amending and supplementing a number of articles of Circular No. 39/2016/TT-NHNN on

lending operations of credit institutions and foreign bank branches to customers. Circular 29 shall take effect from 10 August 2026.

The Board of Management assesses that the adoption of Circular 29 will not have any material impact on the comparative figures of the Bank's single financial statements in future periods.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies which have been adopted by the Bank in the preparation of these interim separate financial statements, are as follows:

Estimates

The preparation of the interim separate financial statements in conformity with Vietnamese Accounting Standards, accounting regime applicable to credit institutions in Vietnam and legal regulations relating to interim separate financial reporting requires the Board of Management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the interim separate financial statements and the reported amounts of revenues and expenses during the operating period. Although these accounting estimates are based on the Board of Management's best knowledge, actual results may differ from those estimates and assumptions.

Foreign currencies

According to the Bank's accounting system, all the transactions are recorded at original currencies. At the date of the interim separate financial statements, monetary assets and liabilities denominated in foreign currencies are translated into VND using the average buying and selling spot exchange rates at the end of the statement of financial position date if the difference between this rate and the weighted average exchange rate of buying and selling of the same day is less than 1% (see details of exchange rates applied on 30 June 2026 in Note 34). In case the buying and selling spot exchange rate at the end of the statement of financial position date is greater than or equal to 1% compared with the weighted average of buying and selling spot exchange rate of that day, the Bank uses the weighted average buying and selling spot exchange rates on the statement of financial position date for conversion. Income and expenses arising in foreign currencies of the Bank are converted into VND at exchange rates ruling at the transaction dates. At the end of the period, exchange rate differences arising from the revaluation of assets and liabilities denominated in foreign currencies into VND are recorded in "Net gain/(loss) from foreign currency trading" in the separate statement of profit or loss. At mid-year, exchange differences are recorded in the interim separate statement of financial position.

Cash and cash equivalents

Cash and cash equivalents comprise cash, gold, gemstones, precious metals, current accounts at the SBV, treasury bills and other short-term valuable papers that are qualified for being discounted at the SBV, current accounts and time deposits for term of three months or less from the deposit date and securities investment with the original maturity of three months or less from the transaction date.

Placements with and loans to other credit institutions

Placements with and loans to other credit institutions are disclosed and presented at their principal amounts outstanding at the end of the reporting period.

Placements with and loans to other credit institutions are classified in terms of credit risks and provisioned in accordance with Circular No. 31/2024/TT-NHNN dated 30 June 2024 ("Circular 31") and Decree No. 86/2024/ND-CP dated 11 July 2024 of the Government ("Decree 86"). Accordingly, the Bank makes specific provisions for deposits at other credit institutions and foreign bank branches in Vietnam; deposits at the Vietnam Bank for Social Policies in accordance with regulations of the State Bank of Vietnam on the requirement for state-owned credit institutions to maintain deposit balances at the Vietnam Bank for Social Policies; deposits at credit institutions and foreign bank branches in accordance with legal regulations; and deposits at overseas credit institutions (excluding demand deposits) are treated similarly to loans to customers.

Derivatives

Foreign currency forward and swap contracts

For foreign currency forward and swap contracts, the difference between equivalent VND amounts of commitments to buy/sell foreign currencies using forward exchange rate and spot exchange rate as at effective date of the contract is recognized immediately at the effective date of the contract in line "Interest and fee receivables" item or "Interest and fee payables" item in the interim separate statement of financial position. The difference is subsequently allocated to "Net gain/(loss) from foreign currency trading" item using straight-line method over the term of the contract.

As at the date of the interim separate financial statements, commitments of foreign currency forward and swap contracts are revalued. Exchange differences arising from the revaluation of foreign currency denominated balances of forward contracts are recognized in the "Foreign and exchanges rate differences" item in the interim statement of financial position and will be recognized in the interim separate statement of profit or loss at the end of the financial year.

Interest rate swap contracts

Commitments of one-currency-interest-rate swap contracts are not recorded in the interim separate statement of financial position. For two-currency-interest-rate swap contracts with nominal principal swap, commitments are recognized in the interim separate statement of financial position. Income and expenses arising from interest rate effects are recorded on the accrual basis. For two-currency-interest-rate swap contracts without nominal principal swap, commitments are recognized in the interim separate statement of financial position at the date of principal exchange. Income and expenses arising from interest rate effects are recorded on the accrual basis.

Loans to customers

Loans and advances to customers are disclosed and presented at their principal amounts outstanding at the end of the reporting period.

Provision for credit losses

Classification of loans and provision for credit losses

Circular 31 introduces regulations on classification of assets (hereinafter referred to as “debts”), including:

- Loans;
- Finance lease;
- Discounts, rediscounts of negotiable instruments and other valuable papers;
- Factoring;
- Credit facilities in the form of credit card issuance;
- On-behalf payments under off-balance sheet commitments (including payments made on behalf of customers to fulfill their obligations under guarantee agreements and in letter of credit (L/C) operations (except for the cases involving the issuance of deferred payment L/Cs with terms allowing the beneficiary to receive payment immediately or before the L/C due date, reimbursement L/C operations where the bank and the customer have agreed that payment to the beneficiary will be made from the bank’s funds starting from the date the bank makes payment to the beneficiary, and L/C negotiation operations) and other on-behalf payments under off-balance sheet commitments);
- Amounts for purchase and entrustment of purchase of corporate bonds (including bonds issued by other credit institutions) which have not yet been listed on stock exchanges or have not yet been registered for trading on the Upcom trading system (hereinafter referred to as unlisted bonds), excluding the purchase of unlisted bonds with trusted funds to which the trustee bears the risk;
- Credit granting entrustment;
- Deposits (except for current accounts and deposits at Vietnam Bank for Social Policies in accordance with the regulations of the SBV on maintaining balance of deposits at Vietnam Bank for Social Policies of state credit institutions) at other credit institutions and foreign banks branches as prescribed by law, and deposits at overseas credit institutions;
- Debt sale and purchase according to the State Bank’s regulations on buying and selling debt, excluding bad debt purchase transactions between credit institutions or foreign bank branches and the Vietnam Asset Management Company (VAMC);
- Repos of Government bonds in the stock market in accordance with law on issuance, registration, depository, listing and trading of Government debt securities in the stock market;
- Purchase of promissory notes, bills and certificates of deposit issued by other credit institutions and foreign banks’ branches.
- Issuance of deferred payment L/Cs containing a provision that the beneficiary is entitled to receive sight payment or advanced payment before the L/C due date, and L/C reimbursement in the form of an agreement with the customer to make payment using the reimbursing bank’s funds from the date on which the reimbursing bank pays the beneficiary; L/C payment by negotiation;
- Outright purchase without recourse of sets of documents presented under L/Cs, except where a commercial bank or foreign bank’s branch buys outright a set of documents presented under an L/C which it issued.

Accordingly, customers' loans are in the higher risk group when being classified under Article 10 and Article 11 of Circular 31 and customers' debt group provided at the time of loan classification by the Credit Information Center ("CIC") of the SBV.

The Bank maintains the debt group for a number of loans as stipulated in Circular No. 10/2015/TT-NHNN dated 22 July 2015 guiding the implementation of some contents of Decree No. 55/2015/ND-CP dated 09 June 2015 of the Government on credit policies for agricultural and rural development; Circular No. 53/2024/TT-NHNN ("Circular 53") dated 4 December 2024, providing regulations on the restructuring of repayment terms by credit institutions and foreign bank branches for customers affected by Typhoon No. 3, floods, landslides, and other damages following the typhoon and other regulations issued by the State Bank of Vietnam on debt classification and credit risk provisioning.

Loans are classified by risk level into: Standard, Special mention, Substandard, Doubtful and Loss. Loans classified as either Substandard, Doubtful or Loss are considered as bad debts. Loan classification and provision for credit losses will be made at the end of each month in the fiscal year.

Net credit risk exposure for each item is calculated by subtracting from the remaining loan balance the discounted value of collateral which is subject to discount rates in accordance with Decree 86 from the remaining loan balance. Specific provision is made based on the net credit risk exposure of each item using the prescribed provision rates as follows:

Group	Category	Provision rate
1	Standard	0%
2	Special mention	5%
3	Substandard	20%
4	Doubtful	50%
5	Loss	100%

For customers whose outstanding debts have had their repayment terms rescheduled in accordance with Circular 53, the Bank determines and recognizes the amount of additional specific provisions to be made (the regulation on maintaining the original debt classification shall not apply) for the entire outstanding balance of customers whose debts have been rescheduled and previously retained in their original classification. The Bank shall make additional specific provisions in accordance with the guidance provided in Decision No. 1510/QĐ-TTg dated 4 December 2024 regarding the classification of credit assets, levels of risk provisioning, methods for provisioning, and the use of provisions to handle risks related to customer debts affected or damaged by Typhoon No. 3, as follows:

- Up to 31 December 2024, at least 35% of the specific provision is additionally made;
- Up to 31 December 2025, at least 70% of the specific provision is additionally made;
- Up to 31 December 2026, 100% of the specific provision is additionally made;

In accordance with Decree 86, a general provision is made for credit losses which are yet to be identified during the loan classification and specific provisioning process as well as in cases where the Bank encounters potential financial difficulty due to the deterioration in loan quality. Accordingly, the Bank is required to fully make and maintain a general provision at 0.75% of total loans which are classified in group 1 to 4, excluding deposits at credit institutions, foreign bank branches in accordance with law and at overseas credit institutions; loans, termed purchase of valuable papers among credit institutions and foreign bank branches in Vietnam; purchases of promissory notes, bills, certificates of deposit or bonds issued locally by other credit institutions

and foreign bank branches; and repurchase agreements of government bonds in accordance with Circular 31.

In addition, for loans to other credit institutions under the Rural Finance Project, the Bank shall make a general provision of 1.5% for outstanding debts classified from Group 1 to Group 4, in accordance with the guidance of the SBV in Official Letter No. 3153/NHNN-TGSNH dated 22 June 2012.

Write-off of bad debts

Provision is recorded in the interim separate statement of profit or loss as an expense and will be used to write off bad debts. In accordance with Decree 86 and Circular 31, the Bank must set up Risk Settlement Committee to write off bad debts if they are classified into Group 5, or if legal entity borrowers are liquidated or bankrupted, or if individual borrowers are deceased or missing.

Classification of off-balance-sheet commitments

The Bank classifies guarantees, letter of credit (L/C) operations (except for the issuance of deferred payment L/Cs with terms allowing the beneficiary to receive payment immediately or before the L/C due date, and L/C reimbursement in the form of an agreement with the customer to make payment using the reimbursing bank's funds from the date on which the reimbursing bank pays the beneficiary; L/C payment by negotiation), payment acceptances, irrevocable loan commitments and other commitments that give rise to credit risks (hereinafter referred to as "Off-balance-sheet commitments") into risk categories as provided in Articles 9, 10, and 11 of Circular 31. Accordingly, they are categorized by risk level as follows: Standard, Special Mention, Sub-standard, Doubtful, and Loss.

Investments

Trading securities

Trading securities include debt securities that the Bank has bought and had the intention to sell in the near future in order to gain benefits from price differences. Trading securities are recognized at cost at the date of transaction and subsequently recorded at cost during the holding period. Interest and cash dividends received from trading securities are recognized on the cash basis in the interim separate statement of profit or loss.

These securities are subject to impairment review at the date of the interim separate financial statements. Provision for securities that are fallen within the scope of Circular 31 and Decree 86 are made in accordance with Circular 31 and Decree 86. Provision for impairment of securities that are not fallen within the scope of Circular 31 are made when their carrying values are higher than their market values determined in accordance with prevailing accounting regulations. Provision for impairment is recognized in the interim separate statement of profit or loss as "Net gain/(loss) from trading securities".

Investment securities

Available-for-sale investment securities

Available-for-sale securities include debt and equity securities that the Bank holds less than 11% of voting rights for investment and ready-for-sale purposes. These securities are not frequently traded but can be sold at any time once they are profitable, and the Bank is neither the founding shareholder/strategic partner nor capable of controlling, to some extent, the process of initiating and approving financial and operational policies of the investee, which is evidenced by a written agreement on delegating personnel for representation in the Board of Directors/Board of Management.

Available-for-sale equity securities are recognized at cost at the transaction date and subsequently recorded at cost during the holding period. Available-for-sale debt securities are recognized at par value at the transaction date. Accrued interest before the acquisition date (for debt securities with interest payment in arrears) or interest income received upfront awaiting amortization (for debt securities with interest payment in advance) is recorded in a separate account. Any discount or premium, which is the difference between the cost and the amount equal to par value plus (+) accrued interest before the acquisition date (if any) or minus (-) interest received upfront awaiting amortization (if any), is also recorded in a separate account.

During the subsequent term of those securities, available-for-sale securities are recorded at par value minus/plus remaining discount/premium after being amortized into the interim separate statement of profit or loss using the straight-line method over the remaining term of securities. Interest payment in arrears is recorded as follows: accumulative interest income before the purchasing date is deducted from the cost of such securities and the same amount is credited into the accrued interest income; accumulative interest income after the purchasing date is recognized as the Bank's income on an accrual basis. Interest received upfront is amortized into the interim separate statement of profit or loss using the straight-line method over the investment period.

Periodically, available-for-sale securities are subject to impairment review. Provision for securities that are fallen within the scope of Circular 31 and Decree 86 are made in accordance with Circular 31 and Decree 86. Provision for impairment of securities that are not fallen within the scope of Circular 31 and Decree 86 are made when their carrying values are higher than their market values determined in accordance with prevailing accounting regulations. Provision for impairment is recorded in the interim separate statement of profit or loss as "Net gain/(loss) from investment securities".

Held-to-maturity investment securities

Held-to-maturity investment securities are debt securities that the Bank purchases for investment purpose in order to gain interest and the Bank has intention and ability to hold the securities until maturity. Held-to-maturity securities have determinable payments and fixed maturity dates. In case of being sold before maturity, they will be reclassified as trading or available-for-sale securities. Held-to-maturity investment securities are recognized similarly to available-for-sale debt securities.

Periodically, held-to-maturity investment securities are subject to impairment review. Provision for securities that are fallen within the scope of Circular 31 are made in accordance with Decree 86 and Circular 31. Provision for impairment of securities that are not fallen within the scope of Circular 11 are made when their carrying values are higher than their market values determined in accordance with prevailing accounting regulations. Provision for impairment is recorded as "Net gain/ (loss) from investment securities" in the interim separate statement of profit or loss.

Reclassification

According to Official Letter No. 2601/NHNN-TCKT dated 14 April 2009 by the SBV, reclassification after transaction date is made only once for each item of investment securities. In special cases or in case a large number of securities have to be reclassified (greater than or equal to 50% of total value of the portfolio), the Bank will disclose the effect of reclassification on total assets, liabilities, equity, income and expenses of the Bank in the interim separate financial statements.

Investments in subsidiaries

Investments in subsidiaries are investments in entities over which the Bank has control rights and are carried at cost in the interim separate financial statements. Distributions from accumulated net profits of subsidiaries arising subsequently to the acquisition date are recognized in the interim separate statement of profit or loss for the period. Distributions from other sources are considered as recovery of investments and are deducted from the cost of the investments.

Investments in joint ventures

A joint venture is a contractual arrangement whereby the Bank and other parties undertake an economic activity on the basis of co-control. The co-control basis is understood to be the making of strategic decisions regarding the operational and financial policies of the joint venture must be agreed upon by the co-controllers.

Investments in joint ventures are carried at cost in the interim separate financial statements. Accordingly, the Bank's contributed capital is initially recorded at cost. Distributions from accumulated net profits of the joint ventures arising subsequently to the date of acquisition are recognized in the interim separate statement of profit or loss for the period. Distributions from sources other than from such profits are considered as recovery of investments and are deducted from the cost of the investments.

Investments in associates

Investments in associates are investments in entities (neither joint venture companies nor subsidiaries) over which the Bank has significant influence. Investments in associates are carried at cost in the interim separate financial statements. Significant influence is the power to participate in the financial and operating policy decisions of the investee but not control or joint control over these policies.

Distributions from accumulated net profits of the associates arising subsequently to the date of acquisition are recognized in the interim separate statement of profit or loss for the period. Distributions from sources other than from such profits are considered as recovery of investments and are deducted from the cost of the investments.

Other long-term investments

Other long-term investments represent the Bank's equity investments in other enterprises at which the Bank either owns less than 11% of the voting rights and is a founding shareholder; or is a strategic partner; or is capable of exerting significant influence, the process of initiating and approving financial and operating policies of the investees, which is evidenced by a written agreement on delegating personnel for representation in the Board of Directors/Board of Management. The investments are initially recognized at cost at the transaction date and always carried at that cost during the subsequent holding period.

Provision for impairment of investments

Provision for impairment of investments in subsidiaries, joint ventures, associates and other long-term investments is made when the investee is operating at loss in accordance with prevailing accounting regulations.

Provision for impairment of long-term investments is recognized as an operating expense in the interim separate statement of profit or loss. In case an investment is made in listed shares or the fair value of an investment is reliably determined, the provision is made based on the market value of the stock (similar to the provision for impairment of trading securities).

Recognition

The Bank recognizes investment securities and other investments at the date when contracts are signed and effective (transaction-date based policy). Investment securities and other investments are initially recognized at cost. After initial recognition, investment securities and other investments are recognized under the above accounting policies.

Derecognition

Investments in securities are derecognized when the rights to receive cash flows from the investments end or when the Bank transfers to the buyer the significant risks and rewards associated with the ownership of the investments.

Repurchase and Reverse Repurchase Agreements

Securities sold under agreements to repurchase at a specific date in the future (repos) are recorded in the interim separate financial statements. The corresponding cash receipt is recognized in the interim separate statement of financial position as a liability. The difference between the sale price and the repurchase price is allocated to the interim separate statement of profit or loss over the agreement validity period using the straight-line method based on the contractual interest rate.

Securities purchased under agreements to resell at a specific date in the future (reverse repos) are not recognized in the interim separate financial statements. The corresponding cash payment is recognized in the interim separate statement of financial position as "Loans to customers". The difference between the purchase price and resale price is allocated to the interim separate statement of profit or loss over the agreement validity period using the straight-line method based on the contractual interest rate.

Trust activities and trusted funds

The value of trusted funds is recorded when the trust contracts have been signed and trusted funds have been realized. Rights and obligations of the trustor and trustee relating to profit and profit sharing, trust fee, other rights and obligations are in compliance with the terms of the signed contracts. The assets that are held under custody services are not considered as assets of the Bank and therefore, they are not recognized in the interim separate financial statements of the Bank.

Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation. The cost of tangible fixed asset comprises all the Bank's purchase price plus any directly attributable costs of bringing the asset to the working condition for its intended use.

Expenditures for additions, improvements and renewals are capitalized. Expenditures for maintenance and repairs are charged to the interim separate statement of profit or loss when incurred. When assets are sold or disposed, their cost and accumulated depreciation are written off from the interim separate statement of financial position and any gains or losses resulting from their disposals are recorded in the interim separate statement of profit or loss.

Intangible assets

Intangible assets are stated at cost less accumulated amortization. The cost of an intangible asset comprises all the Bank's expenditures paid to acquire the asset until it is put into use.

Expenditures for improvements and renewals are capitalized; other expenditures are charged to the interim separate statement of profit or loss when incurred. When intangible assets are sold or disposed, their cost and accumulated amortization are written off from the interim separate statement of financial position and any gains or losses resulting from their disposals are recorded in the interim separate statement of profit or loss.

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

At the date of receiving the leased items, the Bank recognizes assets held under finance leases as fixed assets and liabilities under finance leases in the interim separate statement of financial position at the fair value of the lease assets or, if lower, at the net present value of the minimum lease payments. Finance lease payments are divided into financial expenses, which comprises interest on finance lease and principal payable in each period in equal instalments.

Depreciation of finance lease assets are calculated and charged to the interim separate statement of profit or loss in the same way as applicable to other fixed assets of the same group owned by the Bank. If there is uncertainty that the Bank will purchase the lease assets at the end of the lease term, finance lease assets are depreciated over the lease term stated in the contracts or, if shorter, the useful life of the lease assets.

Operating lease assets are not recognized in the interim separate statement of financial position. Rentals under operating leases are recorded in "Other operating expenses" on a straight-line basis over the lease term.

Depreciation and amortization

Depreciation and amortization of tangible fixed assets and intangible assets are calculated on a straight-line basis over the estimated useful lives of the assets.

Assets	Estimated useful lives (Years)
Buildings and structures	7 - 50
Machinery and equipment	5 - 12
Motor vehicles	6 - 15
Management tools and equipment	5
Other tangible fixed assets	4
Computer software	3 - 8
Other intangible assets	2 - 20

The cost of the land use rights is not amortized if it is granted by the Government of Vietnam for an indefinite term. The cost of the land use rights with definite term is amortized over the granted term.

Prepayments

Prepayments include actual expenses that have arisen but are related to the results of production and business activities of multiple accounting periods. Prepayments comprise prepaid office rentals and other long-term prepaid expenses.

Office rentals represent the amounts which have been paid in advance. Prepaid office rental is charged to the interim separate statement of profit or loss using the straight-line method over the rental period.

Other long-term prepayments include repair, maintenance costs for assets, costs of tools and supplies issued for consumption, which are expected to provide future economic benefits to the Bank. These expenses are capitalized as prepayments and are allocated to the interim separate statement of profit or loss using the straight-line method over the period of one year or more, but not exceeding three years in accordance with prevailing accounting regulations.

Receivables

Receivables other than those from credit activities in the Bank's operation are initially recognized at cost and subsequently recorded at cost. Other receivables are subject to impairment review for provision making based on the overdue status or based on the expected loss for the following cases: institutional debtors who have fallen into bankruptcy or have been in the process of dissolution; or individual debtors who are missing, escaping, prosecuted, on trial or passed away even though receivables are not overdue. Provision expense incurred is recorded as "Operating expenses" in the interim separate statement of profit or loss during the period.

Provision rates for overdue receivables are applied in accordance with the prevailing accounting regulations.

Other provisions

Other provisions are recognized when the Bank has a present obligation as a result of a past event, and it is probable that the Bank will be required to settle that obligation. Other provisions are measured at the Board of Management's best estimate of the expenditure required to settle the obligation at the reporting date.

Capital and reserves

Common shares

Common shares are classified as owners' equity.

Share premium

When capital is received from shareholders, the difference between selling price and par value is recorded as share premium in owners' equity. Incurred expenses that directly relate to the issuance of common shares are recognized as a decrease in share premium.

Treasury shares

When issued shares are repurchased, the aggregate amount paid, including expenses that directly relate to the repurchase of shares, after deducting taxes, is recorded as treasury shares and stated as a decrease in owners' equity.

Reserves

Reserves are used for specific purposes and are appropriated from the Bank's profit after tax based on the regulated ratios in the following sequence:

- Charter capital supplementary reserve: 10% of profit after tax, in accordance with Decree No. 135/2025/ND-CP ("Decree 135") dated 12 June 2025 issued by the Government, prescribing the financial regime applicable to credit institutions and foreign bank branches and the financial supervision and assessment of the effectiveness of state capital investment in credit institutions. This supplementary reserve does not exceed the Bank's charter capital;
- Financial reserve fund: 10% of the remaining profit after deducting the amounts prescribed in Clause 4, Article 23 of Decree 135;
- Investment and Development fund: up to 25% of the remaining profit after deducting the amounts prescribed in Clause 4, Article 23 of Decree 135.
- Other reserves, if any, will be approved by the shareholders at the Annual General Shareholders' Meeting.

Revenue and expenses

Interest and similar income/expenses

Interest income and interest expenses are recognized in the interim separate statement of profit or loss on the accrual basis. The accrued interest income arising from the loans that are classified from group 2 to group 5 in accordance with Circular 31, accrued interest income on loans restructured and maintained as Standard loan groups (group 1) as prescribed in Circular 53, and Decree No. 55/2015/ND-CP dated 09 June 2015 will not be recognized in the interim separate statement of profit or loss. Accrued interest income on such loans is recorded as an off-balance-sheet item and recognized in the interim separate statement of profit or loss when actually received.

Interest income and interest expenses on investments in securities are recorded on the accrual basis. Accrued interest income of overdue securities is not recognized in the interim separate statement of profit or loss for the period and is recorded as an off-balance sheet item and only recognized in the interim separate statement of profit or loss when actually received.

Income from service charges and commissions

Income from service charges and commissions is recognized on the accrual basis.

Income from guarantee and L/C commitment activities

Income from guarantee and L/C commitment activities is recognized on the accrual and allocation basis

Recognition of dividends and profits received

Cash dividends and profits received from investment and capital contributions activities are recorded in the interim separate statement of profit or loss when the Bank's right to receive dividends and profits has been established. Share dividends, which are distributed from profits of joint stock companies, are recognized neither as an increase in the value of received shares nor financial income in the interim separate financial statements but are only used for tracking the increase in the number of shares according to Circular No. 22/2017/TT-NHNN dated 29 December 2017 issued by the State Bank of Vietnam.

Revenue from other services

When the contract results can be determined reliably, revenue will be recognized based on the level of work completion. If the contract results cannot be determined reliably, revenue will only be recognized at the recoverable level of the recorded expenses.

Recognition of accrued income not yet collected

According to Circular No. 16/2018/TT-BTC dated 07 February 2018 issued by the Ministry of Finance, receivables recognized as accrued income but subsequently assessed to be not recoverable or not yet recoverable at the due date are recorded as reduction in revenue if the income has been accrued in the same financial year or recorded as other expenses if accrued in different financial year and monitored off-balance-sheet. Upon actual receipt of these receivables, the Bank recognizes them in "Other income" in the interim separate statement of profit or loss.

Taxation

Corporate income tax expense represents the sum of the current corporate income tax expense and deferred tax.

The current corporate income tax expense is based on taxable income for the period. Taxable income differs from profit before tax as reported in the interim separate statement of profit or loss because it excludes items of income or expense that are taxable or deductible in other periods (including loss carried forward, if any) and it further excludes items that are never taxable or deductible.

Deferred tax is recognized on temporary differences between carrying amounts of assets and liabilities in the interim separate financial statements and the corresponding tax bases. Deferred tax liabilities are generally recognized for all taxable temporary differences, unless they occurred from the initial recognition of an asset or liability of a transaction which has no impact on accounting profit or taxable income/(loss) at the transaction date. Deferred tax assets are recognized to the extent that it is probable that taxable income will be available against which deductible temporary differences can be utilized.

Deferred tax is calculated at the tax rates that are expected to apply in the year when the liability is settled or the asset is realized. Deferred tax is charged or credited to interim separate statement of profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same tax authority and the Bank intends to settle its current tax assets and liabilities on a net basis.

The determination of the current corporate income tax expense is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

Employee benefits

Post-employment benefits

Post-employment benefits are paid to retired employees of the Bank by the Vietnam Social Insurance. The Bank is required to contribute to these post-employment benefits by paying social insurance premium to the Social Insurance Agency at the rate of 17.5% of the employee's monthly position-based salary for their working period. In addition, the Bank also uses its Welfare Fund to pay one-time retirement benefit to employees under the Bank's regulations. Social insurance is recorded in the separate statement of income when incurred.

Severance allowance

According to Article 46 of Labour Code 2019, the Bank is responsible for paying severance allowance for employees who have regularly worked at the Bank for 12 months or more. For each year of employment (12 months), an employee is entitled to one-month salary, which is the basis for social insurance contributions based on the average salary used for social insurance calculation in the 6 months immediately preceding the termination of the labor contract. The working period used for calculation of severance allowance pay is the total time the employee has actually worked for the employer minus the time employee has participated in unemployment insurance and the working period that has been paid by the employer. Severance allowance is recognized in the separate statement of profit or loss on a cash basis.

Retrenchment benefits

According to Article 47 of Labour Code 2019, the Bank is responsible for paying retrenchment benefits for employees who have regularly worked at the Bank for 12 months or more but are retrenched from their jobs as a result of organizational restructuring, technological changes, economic reasons, business combination, consolidation or split. For each year of employment (12

months), an employee is entitled to one-month salary as a basis for paying Social Insurance but not less than two times the average salary of 06 consecutive months immediately preceding the job loss date. The working period used for calculation of retrenchment benefits excludes the period that employees benefit from unemployment insurance and the working period that employees receive severance allowance and retrenchment allowance from employers. Retrenchment benefits is recognized in the separate statement of profit or loss on a cash basis.

Unemployment insurance

According to the Circular No. 28/2015/TT-BLDTBXH dated 31 July 2015 of the Ministry of Labour, War Invalids and Social Affairs guiding the implementation of Article 52 of the Employment Law 2013 and Decree No. 28/2015/ND-CP of the Government dated 12 March 2015 regulating the implementation of the Law on unemployment insurance, from 01 January 2009, the Bank is obliged to pay unemployment insurance to eligible employees at 1% of their salary fund allocated for unemployment insurance. Unemployment insurance contribution is recognized in the separate statement of profit or loss on a cash basis.

Related parties

- The parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making decisions on financial and operating policies. A party is considered as a related party with the Bank if:
- The parent company or the credit institution that is the parent company of the Bank;
- A subsidiary of the Bank;
- A company that shares the same parent company or the same parent credit institution as the Bank
- Management personnel, member of Board of Supervisors of the parent company or the parent credit institution of the Bank;
- An individual or organization authorized to appoint managers or members of the Board of Supervisors of the parent company or the parent credit institution of the Bank;
- Management personnel, Board of Supervisors of the Bank;
- An individual or organization authorized to appoint managers or members of the Board of Supervisors of the Bank;
- Company or organization authorized to appoint managers or members of the Board of Supervisors of the Bank;
- Spouse; natural father/mother, foster father/mother, stepfather, stepmother, father-in-law, mother-in-law; natural/foster child, stepchild, daughter-in-law, son-in-law; sibling; half-sibling; spouse of natural sibling or half sibling (hereinafter referred to as "spouse, father, mother, child or sibling"); maternal grandfather/grandmother, paternal grandfather/grandmother; maternal/paternal grandchild; and maternal/paternal aunt, uncle and nibbling of any manager, member of the Board of Supervisors, capital-contributing member, or shareholder holding 5% or more of the charter capital or voting shares of the Bank;
- Companies or credit institutions with individuals who have relationships as stipulated in point above of this clause with managers, controllers, members of the Supervisory Board, contributing members, or shareholders owning 5% or more of the charter capital or voting shares of that company or credit institution, and vice versa;
- Individual authorized to represent the Bank's capital contribution or shareholding.
- Other legal entities or individuals who have potential risk relationships with the Bank's activities according to the law, the Bank's internal regulations, or as required by the State Bank of Vietnam.

The Government of Vietnam, through the State Bank of Vietnam, is a shareholder of the Bank. Accordingly, in those interim single financial statements, certain government-related entities, including the Ministry of Finance and the State Bank of Vietnam, are considered related parties of the Bank.

Offsetting

Financial assets and liabilities are offset and the net amounts are reported in the interim separate statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

Overseas	56,981	2,405,276	97,167	-	125,183

29. RISK MANAGEMENT POLICIES RELATED TO FINANCIAL INSTRUMENTS

On 29 November 2019, the Governor of the SBV signed Decision No. 2505/QĐ-NHNN, which acknowledged that the Joint Stock Commercial Bank for Investment and Development of Vietnam would adopt Circular No.41/2016/TT-NHNN dated 30 December 2016 ahead of time, starting from 01 December 2019. In addition to meeting the SBV's requirements on Risk Management ("RM"), with the support of consultants, the Bank always actively does research and develops risk management to meet the internal management requirements, following good practices in the world.

Market risk management, interest rate of banking book and liquidity are centrally managed at the head office with the organizational structure set up following the three lines of defence model. The Bank has issued a complete system of policies, regulations, professional guidance manuals and applied risk management tools to comply with SBV regulations, in line with Basel's recommendations as well as international practices.

Portfolios with market risk exposures are subject to mark-to-market or mark-to-model valuations on a daily basis. The Bank has developed market risk measurement tools including: position, actual and expected gains and loss, sensitivity indicators (BPV, duration, etc.); Value at risk (VaR); Endurance test (Stress test) and capital requirements for market risks. Data sources and market risk measurement models are reviewed, hypothesis testing of VaR models and testing of market risk tolerance are conducted regularly. A limit system is set up and monitored to control daily market risk, including quantitative limits (position, stop-loss limit, BPV limit, VaR limit) and qualitative limit (product, currency, term, etc.). The minimum required capital for market risk is determined by methods regulated by the SBV in accordance with Circular No. 41/2016/TT-NHNN dated 30 December 2016.

In order to manage credit risk, the Bank has issued and implemented internal credit policies and procedures.

The Bank manages liquidity risk on the principle of ensuring compliance with the liquidity safety ratio in accordance with the SBV's regulations, maintaining the appropriate size and quality of highly liquid assets to ensure safe liquidity at all times. The measurement of liquidity risk is conducted through the cash flow method (liquidity gap) and the index method (including the set of indicators prescribed by the SBV and the internal indicators); liquidity stress testing is carried out every 6 months. The Bank has set up a limit system/warning threshold corresponding to the indicators.

Banking book interest rate risk is measured by assessing the impact on the Bank's net interest income (NII) and economic value of equity (EVE). Accordingly, the Bank establishes limits/warning thresholds of interest rate repricing gap, changes in net interest income, duration gap and fluctuations in economic value of equity to control potential impacts of banking book interest rate risk. At the same time, the Bank performs a capital endurance test against banking book interest rate risk, with a method based on the advice from consultants.

The Bank has implemented application programs to automate the measurement, monitoring and reporting of market risks, interest rate of banking books and liquidity. The internal reporting system on market risk management, banking book interest rates and liquidity is implemented daily, quarterly and irregularly in accordance with the regulations of the SBV, meeting internal management requirements.

30. CURRENCY RISK

Currency risk is the risk that the Bank's asset or value of an investment fluctuates due to changes in foreign exchange rates. The Bank was established and operates in Vietnam with reporting currency of VND. The Bank's assets are denominated mainly in VND and partly in other currencies. The Bank has launched a limit system to manage foreign exchange risks deriving from foreign exchange position held by the Bank. Foreign exchange positions are monitored on a daily basis and hedging strategies are used to ensure that risk management indicators are maintained within the established limits.

31. INTEREST RATE RISK

Interest rate risk is the risk that the Bank must bear when the fluctuation of interest rate adversely influences the Bank's income, the values of assets, liabilities and off-balance-sheet commitments, The repricing term is the remaining term from the date of the interim separate financial statements to the latest repricing date of interest rate sensitive assets and liabilities, The following assumptions and conditions are applied when analyzing the interest rate repricing term of the Banks' assets and liabilities:

- ▶ Cash, gold and gemstones; long-term investments; fixed assets; other assets and other liabilities are classified as items which are free of interest rate sensitivity;
- ▶ Balances with the SBV are classified as interest-free for the non-compulsory reserve in VND and all reserve in USD; the remaining balance is classified into a term of up to one month;
- ▶ Trading securities: The repricing term of trading securities is determined based on information about the actual maturity date or remaining holding period as prescribed and the latest repricing date of the securities (for floating rate securities) from the date of the interim separate financial statements, whichever is earlier;
- ▶ Placements with and loans to other credit institutions; loans to customers; investment securities; derivative financial instruments and other financial assets; borrowings from the Government and the SBV; deposits and borrowings from other credit institutions; deposits from customers; grants, trusted funds and borrowings where the Bank bears risks and valuable papers issued: The repricing term is determined based on the actual maturity date or the latest re-pricing date (for floating-rate items) calculated from the date of the separate financial statements, whichever is earlier,

32. LIQUIDITY RISK

Liquidity risk is the risk that: (i) the Bank is unable to fulfil its obligations at the time financial obligations are incurred; or (ii) the Bank has ability to perform obligations at due date but must bear above average cost of market to fulfil those obligations. In order to reduce liquidity risk, the Bank maintains suitable structure of assets and liabilities, and simultaneously strengthens the capability of raising funds from various sources. The Bank has policies in place to manage highly liquid assets and to monitor future cash flows and liquidity status on a daily basis. Expected cash flows and availability of collaterals are also evaluated in case of need for funds.

The following assumptions and conditions are adopted in the analysis of maturity of the Bank's assets and liabilities:

- ▶ Balances with the SBV are considered current account (including the compulsory reserves) and classified to a term due within one month;
- ▶ The maturity term of trading securities is based on the actual maturity or the allowed remaining holding period whichever comes first;
- ▶ The maturity term of investment debt securities is based on the maturity date of each type of securities,
- ▶ The maturity terms of placements with and loans to other credit institutions and loans to customers are based on the contractual maturity date. The actual maturity term may vary from the contractual term when the contract is extended;
- ▶ The maturity date of equity investments is classified as over five (05) years as equity investments have no defined maturity;
- ▶ Deposits and borrowings from other credit institutions and deposits from customers are determined based on either the nature of the amounts or their contractual maturity terms. Vostro accounts are paid upon customers' demand and therefore are considered to have shortest term (due within one month). Demand deposits accounts from customers are segmented based on actual deposit retention time. The maturity of term deposits and borrowings is based on their contractual maturity date. In practice, such items may be revolved and therefore maintained for longer periods than their initial maturity term or the term deposits subject to early withdrawal or repayment (not complying with the contractual maturity date);
- ▶ The maturity date of fixed assets is classified as 5 years or more,

(*) Excluding risk provision,

33. CREDIT RISK

Credit risk is the possibility that the Bank may incur losses because its customers, clients and counterparties do not perform or fail to perform their contractual obligations, The Bank controls and manages credit risk by setting credit limits based on the risk tolerance level that the Bank specifies for individual customers and each industry and setting up the medium and long-term credit limit suitable for the structure of mobilization,

The Bank has established a credit quality review process to provide early identification of possible changes in financial position, repayment ability of debtors based on qualitative and quantitative factors, Credit limit for each customer is determined by the use of the credit scoring system, in which each customer is classified at a certain risk level, Customer's risk level is updated regularly, The Bank controls and manages credit risk by establishing an authorization limit for each branch based on its credit portfolio quality, management capability and geographical potentiality,

The Bank has developed a number of customer policies in order to select good customers and have suitable and consistent policies applicable to each customer, The Bank has developed a diversified range of products to meet customers' demands and established credit appraisal and approval procedures at branches and the Head Office for consistent implementation in the Bank's entire system to mitigate operational risks, In addition, in order to strengthen secured methods for loans and minimize operational risks, the Bank has also issued detailed guidance on guarantees for loans,

Financial assets that are overdue but not impaired

The Bank's financial assets that are overdue but not impaired are overdue loans for which specific provision balances required to be made in accordance with the accounting standards and regimes applicable to credit institutions in Vietnam and legal regulations relating to the preparation and presentation of financial statements are nil,

Aging of financial assets overdue but not impaired as at 30 June 2026 is described below:

	Overdue			
	Under 90 days	91-180 days	181-360 days	Over 360 days
	VND million	VND million	VND million	VND million
Loans to customers	89,033	254,543	559,158	845,454

34. EXCHANGE RATES OF SOME FOREIGN CURRENCIES AT THE END OF THE PERIOD

Currencies	Closing balance	Opening balance
USD	26,286	26,290
EUR	30,203	31,046
GBP	34,894	35,437
CHF	32,676	33,282
JPY	162,72	168,72
SGD	20,350	20,449
CAD	18,531	19,219
AUD	18,155	17,616

35. SUBSEQUENT EVENTS AFTER REPORTING DATE

On 6 July 2026, the Bank's Board of Directors issued Resolution No. 93/NQ-BIDV approving the payment of cash dividends for 2025 in accordance with Article 4 of the Annual General Meeting of Shareholders Resolution No. 340/2026/NQ-ĐHĐCĐ dated 24 April 2026, and the State Bank of Vietnam's Official Letter No. 5621/NHNN-TCKT dated 29 June 2026, approving the payment of cash dividends for 2025, Accordingly, the Bank will pay cash dividends for 2025 at a rate of 4,5%, equivalent to VND 450 per share.

According to the resolution of the Annual General Meeting of Shareholders No. 342/2026/NQ-DHĐCĐ dated 24 April 2026, and SBV's Official Letter No. 4860/NHNN-QLGS dated 08 June 2026, on 16 June 2026, the Board of Directors of BIDV issued Resolution No. 800/NQ-BIDV on issuing shares to increase charter capital from equity capital, Accordingly, BIDV will issue shares to increase charter capital with a maximum projected issuance amount of 498,196,702 shares.

Except for the above event, there were no other significant events occurring after 30 June 2026 and up to the date of issuance of these interim single financial statements that would probably have significant impacts on the interim single financial position, the interim single financial performance and the interim single cash flow of the Bank and require adjustments or disclosures in the interim single financial statements for the six-month period ended 30 June 2026.

Theo quy định về việc công bố thông tin của các công ty niêm yết, tại Điều 14, Thông tư 96/2020/TT-BTC, “*Khi công bố thông tin các báo cáo tài chính nêu tại khoản 1, 2, 3 Điều này, tổ chức niêm yết, công ty đại chúng quy mô lớn phải đồng thời giải trình nguyên nhân khi Lợi nhuận sau thuế thu nhập doanh nghiệp tại Báo cáo kết quả hoạt động kinh doanh của kỳ công bố thay đổi từ 10% trở lên so với báo cáo cùng kỳ năm trước...*”.

According to the regulations on information disclosure for listed companies, Article 14 of Circular 96/2020/TT-BTC states: “When disclosing information about financial statements specified in Clauses 1, 2 and 3 of this Article, the organization that has shares listed or large-scale public company shall be required to provide explanation from the occurrence of After-tax profit shown in the income statement of the reporting period increases/decreases by at least 10 compared to that of the same reporting period in the previous year...”.

Kết quả hoạt động kinh doanh, LNST trên BCTC riêng lẻ và hợp nhất bán niên năm 2026 đã được soát xét của BIDV tăng trưởng trên 10% so với cùng kỳ năm 2025, chi tiết theo bảng dưới đây:

The business performance results and after-tax profit reflected in the reviewed separate and consolidated financial statements for the six-month period ended 30 June 2026 of BIDV demonstrate growth exceeding 10% compared to the corresponding reporting periods of 2025, as presented in the table below:

Đơn vị: triệu VND/Unit: Million VND			
Chỉ tiêu/ Items	06 tháng đầu năm 2026/ Six-month period ended 30 June 2026	06 tháng đầu năm 2025/ Six-month period ended 30 June 2025	Tăng trưởng/ Growth
LNST riêng lẻ/ <i>Separate after-tax profit</i>	14.494.261	12.222.093	18,59%
LNST hợp nhất/ <i>Consolidated after-tax profit</i>	15.173.711	12.853.449	18,05%

¹ “*Nội dung giải trình này được công bố kèm theo Báo cáo tài chính của BIDV phát hành ngày 14/08/2026*”
This explanatory note is disclosed along with the financial statements of BIDV issued on August 14th, 2026.”

Thực hiện theo quy định trên, Ngân hàng TMCP Đầu tư và Phát triển Việt Nam (BIDV) giải trình biến động lợi nhuận như sau: “Lợi nhuận sau thuế riêng lẻ và Lợi nhuận sau thuế hợp nhất bán niên năm 2026 đã được soát xét tăng so với cùng kỳ năm trước do Ngân hàng gia tăng thu nhập thuần từ lãi và đẩy mạnh hoạt động thu nợ đã xử lý rủi ro”.¹

In compliance with the above regulation, Joint Stock Commercial Bank for Investment and Development of Vietnam, JSC. provides the following explanation for the profit fluctuations: “The reviewed separate after-tax profit and consolidated after-tax profit for the six-month period ended 30 June 2026 increased compared to the previous year driven by the Bank’s growth in net interest income and strengthened the recovery of written-off debts.”¹

BIDV báo cáo đề Quý Cơ quan và Quý Nhà đầu tư được rõ.

BIDV respectfully submits this report for the awareness and consideration of the esteemed regulatory authorities and distinguished investors.

Trân trọng.

Sincerely./.
