**CPC EXPLANATION OF REASONS FOR PRE-TAX PROFIT
DIFFERING BY OVER 10% COMPARED TO THE SAME
PERIOD**

CPC's after-tax profit in the third quarter of 2026 reached more than VND 101.06 million, a decrease of 78,06% compared to the same period in 2025.

CPC would like to present the basic reasons for the difference of more than 10% over the same period as follows:

- CPC's financial expenses in the third quarter of 2026 increased by +89.76% compared to the same period last year during financial income in the third quarter of 2026 increased by +60.66% only, so its after-tax profit compared to the same period decreased by 78.06% as above.

In the context of the general difficulties of the economy, our company will strive to save costs and utilize all resources to strive to improve the competitiveness of the enterprise.
