Reasons: In Quarter III/2026 profit after corporate income tax increase compared to Quarter III/2025 mainly due to the following reasons:

- Revenue from sales and services increased by 194.46%, primarily driven by revenue from operating the Xuan Hoa Construction Stone Quarry and from leasing the Sonadezi Building.

- Cost of goods sold increased by 323.41%, a higher rate than the growth rate in revenue, as expenses related to land and infrastructure business at Bien Hoa 1 Industrial Park continued to be incurred and the cost of goods sold from the Xuan Hoa Stone Mine increased proportionally with revenue. As a result, gross profit from sales and services increased by 69.10% compared to the same period last year.

- Financial income decreased by 139.75% compared to the same period last year due to higher dividend income from financial investments.

As a result of these factors, total accounting profit before tax increased by 140.27%, while profit after corporate income tax increased by 141.50% compared to the same period last year.

Sonadezi Corporation provides an explanation to the State Securities Commission, the Hanoi Stock Exchange and shareholders for information.

Sincerely.
