**TO: STATE SECURITIES COMMISSION OF VIETNAM
HANOI STOCK EXCHANGE**

Song Da Industry Trade Joint Stock Company would like to explain the difference in net revenue and profit after tax in the financial statements for the third quarter of 2026 compared to the same period last year, specifically as follows:

No.	Item	3 rd quarter, 2025	3 rd quarter, 2026	Difference
1	Net revenue	34,697,57,587	70,767,018,639	36,069,439,052
2	Profit after tax	2,364,280,370	3,609,852,805	1,245,572,435

Reasons:

Total revenue from sales of goods and consumption of products in the third quarter of 2026 is expected to increase by over 10%. Specifically, it will increased by 36.07 billion VND compared to the same period in 2025, mainly due to:

- Volume of goods consumed in the third quarter of 2026: The volume of plastic products consumed increased by 99 tons; The volume of Clinke products consumed increased by 4,817 tons compared to the same period in 2025, increasing the revenue from sale of goods by 7.4 billion VND compared to the same period in 2025;

- The volume of finished packaging products consumed increased by 4.35 million, increasing the revenue from sale of semi-finished products by 28.67 billion VND compared to the same period in 2025.

Total after-tax profit for the third quarter of 2026 is expected to increase by over 10%. Specifically, it will increase by 1.25 billion VND compared to the same period in 2025. The main reason is that the Company has intensified its market development efforts, resulting in increased product sales revenue. Although the Company also adjusted upward the budgeted amounts for salary expenses and selling expenses, its profit in the third quarter of 2026 still increased compared with the same period in 2025

Above explains the main reasons for the increase in revenue and after-tax profit in the third quarter of 2026 compared to the same period in 2025 of Song Da Industry Trade Joint Stock Company.
