Pursuant to the provisions of Section 4, Article 14 of Circular 96/2020/TT-BTC dated November 16, 2020 of the Ministry of Finance, Ton Dong A Corporation hereby would like to explain the reason for the difference in profit after corporate income tax in consolidated income statement for the six-month period ended 30 June 2026 Changing compared to the report of the same period last year.

In the first six months of the year 2026, the Company recorded growth with a profit after tax of VND 142.2 billion, an increase of VND 8.1 billion (equivalent to a 5.4% increase) compared to the same period in the year 2025.

Reason: In the context of the steel industry facing many challenges due to rising input material prices and intense competition, the company proactively optimized costs. As a result, financial costs decreased by 7%, selling expenses decreased sharply by 55.2%, and administrative expenses increased slightly by 8.9%. This effective cost management helped after-tax profit in the first six months of the year 2026 grow by 5.4% compared to the same period in the year 2025.

Thank you very much.
Best regards!
