Pursuant to the provisions of Section 4, Article 14 of Circular 96/2020/TT-BTC dated November 16, 2020 of the Ministry of Finance, Ton Dong A Corporation hereby would like to explain the reason for the difference in profit after corporate income tax in separate income statement for the six-month period ended 30 June 2026 changing by 10% or more compared to the report of the same period last year.

In the first six months of the year 2026, the Company recorded growth with a profit after tax of VND 140.4 billion, an increase of VND 16.1 billion (equivalent to 12.9% increase) compared to the same period in the year 2025.

Reason: In the context of the steel industry facing many challenges due to rising input material prices and intense competition, the company proactively optimized costs. As a result, financial costs decreased by 9%, selling expenses decreased sharply by 46.6%, and administrative expenses decreased by 10.2%. This effective cost management helped after-tax profit in the first six months of the year 2026 grow by 12.9% compared to the same period in the year 2025.

Thank you very much.
Best regards!
