Independent auditor

These interim consolidated financial statements were reviewed by AAC Auditing and Accounting Co., Ltd (Head office: No. 218, 30 Thang 4 Street, Hoa Cuong Ward, Da Nang City; Tel: (84) 0236.3655886; Fax: (84) 0236.3655887; Website: www.aac.com.vn; Email: aac@dng.vnn.vn).

Chairperson and Management's statement of responsibility in respect of the interim consolidated financial statements

The Company's Chairperson and Management are responsible for the preparation and fair presentation of these interim consolidated financial statements on the basis of:

- Complying with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System, and other relevant regulations;
- Selecting suitable accounting policies and then applying them consistently;
- Making judgments and estimates that are reasonable and prudent;
- Preparing the interim consolidated financial statements on the going concern basis;
- Responsibility for such internal control as Chairperson and Management determine is necessary to enable the preparation and presentation of interim consolidated financial statements that are free from material misstatement, whether due to fraud or error.

The Chairperson, as the legal representative of the Company, hereby confirms that the accompanying interim consolidated financial statements, including the interim consolidated statement of financial position, the interim consolidated income statement, the interim consolidated statement of cash flows and the notes thereto, give a true and fair view of the consolidated financial position of the Company as at 30/06/2026, and of the consolidated results of its operations and its consolidated cash flows for the first 6 months of 2026 in accordance with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System, and the statutory requirements relevant to the preparation and presentation of interim consolidated financial statements.

REPORT OF CHAIRPERSON AND MANAGEMENT (cont'd)**Approval of financial statements**

The Company's legal representative, Ms. Tran Thi Huong (Chairperson of the Board of Directors), has authorized Mr. Pham Khac Duong (Director) to sign the financial statements pursuant to Decision No. 01/2022/QĐ-DHCSD dated 25/05/2022.

The stamp is circular with a red border. Inside the border, the text 'CÔNG TY CỔ PHẦN' is at the top, 'DHC' is in the center, and 'SUỐI ĐÔI' is at the bottom. The registration number 'S.D.N: 0401585834' is written along the top inner edge, and 'C.T.C.P' is at the bottom. There are two small stars on either side of the central text.

No. 897/2026/BCSX-AAC

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To: The Shareholders, Board of Directors and Management
DHC Suoi Doi Corporation

We have reviewed the interim consolidated financial statements of DHC Suoi Doi Corporation (the "Company") as prepared on 21/08/2026 and set out on pages 6 to 37, which comprise the interim consolidated statement of financial position as at 30/06/2026, the interim consolidated income statement and the interim consolidated statement of cash flows for the first 6 months of 2026, and the notes thereto.

Chairperson and Management's Responsibility

The Company's Chairperson and Management are responsible for the preparation and fair presentation of these interim consolidated financial statements in accordance with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System, and the statutory requirements relevant to preparation and presentation of the interim consolidated financial statements, and for such internal control as the Chairperson and Management determine is necessary to enable the preparation and presentation of interim consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express a conclusion on the interim consolidated financial statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity".

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Company as at 30/06/2026, and its consolidated financial performance and its consolidated cash flows for the first 6 months of 2026 in accordance with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System, and the statutory requirements relevant to preparation and presentation of the interim consolidated financial statements.

1.4. Normal operating cycle: The Company's normal operating cycle is 12 months.

1.5. Corporate structure

The Company has one subsidiary, namely DHC Farm Company Limited.

Address: 158 Bui Ta Han Street, Ngu Hanh Son Ward, Da Nang City

Ownership interest: 100%; voting rights: 100%.

1.6. Number of employees: As at 30/06/2026, the Company had 403 employees.

1.7. Comparability of information presented in the financial statements

On 20 April 2026, the Ministry of Finance issued Circular No. 43/2026/TT-BTC providing guidance on the methods of preparation and presentation of consolidated financial statements (effective from 1 January 2026 and applicable to accounting periods beginning on or after 1 January 2026), amending and supplementing certain provisions of Circular No. 202/2014/TT-BTC dated 22 December 2014.

Except for items for which Circular No. 44/2026/TT-BTC requires retrospective application, the Company applies all other items in the accompanying consolidated financial statements prospectively. Material changes in the Company's accounting policies and their impact on the consolidated financial statements, if any, are presented in the following notes to the consolidated financial statements:

Borrowing costs (Note 4.14).

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (cont'd)
(These notes form part of and should be read in conjunction with the accompanying financial statements)

2. Accounting period and currency used in accounting

The Company's annual accounting period begins on 1 January and ends on 31 December. These interim consolidated financial statements are exclusively prepared for the first 6 months of 2026 (from 01/01/2026 to 30/06/2026).

Financial statements and accounting transactions are expressed in Vietnamese Dong (VND).

3. Applied accounting standards and accounting system

The Company applies the Vietnamese Accounting Standards and the Vietnamese Corporate Accounting System as guided under Circular No. 99/2025/TT-BTC dated 27 October 2025 issued by the Ministry of Finance.

The consolidated financial statements are prepared and presented in accordance with the provisions of Circular No. 202/2014/TT-BTC dated 22 December 2014 and Circular No. 43/2026/TT-BTC dated 20 April 2026 amending and supplementing certain provisions of Circular No. 202/2014/TT-BTC issued by the Ministry of Finance.

4. Accounting policies, accounting estimates and relevant applicable regulations

4.1 Principles and methods of preparing consolidated financial statements

4.1.1 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiary.

A subsidiary is an entity controlled by the Company. Control is achieved where the Company has the power to directly or indirectly govern the financial and operating policies of an investee entity so as to obtain benefits from its activities. The financial statements of the subsidiary are consolidated from the effective date of control up to the date of cease to control.

The financial statements of the subsidiary are prepared for the same reporting period as the Company, using consistent accounting policies. Adjustments are made for any differences in accounting policies that may exist to ensure consistency between the Company and its subsidiary.

All intra-company balances and transactions, unrealized profits or losses arising from intra-company transactions, have been eliminated in full when preparing the consolidated financial statements.

4.1.2 Business combination

Assets, liabilities, and contingent liabilities of a subsidiary are measured at their fair values at the date of acquisition. Any excess of the cost of acquisition over the fair values of the identifiable net assets acquired is recognized as goodwill. Any deficiency of the cost of acquisition below the fair values of the identifiable net assets acquired is credited to consolidated profit and loss in the period of acquisition.

4.1.3 Method of recognizing non-controlling interests

Non-controlling interests represent the portion of net assets in subsidiaries not held by the Company and are presented within equity in the consolidated balance sheet, separately from parent shareholders' equity. Non-controlling interests in the net assets of consolidated subsidiaries include: non-controlling interests at the acquisition date which are determined according to the fair value of net assets of subsidiaries at the acquisition date; non-controlling interests' share of changes in equity as from the acquisition date up to the beginning of the reporting period and non-controlling interests

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (cont'd)
(These notes form part of and should be read in conjunction with the accompanying financial statements)

in the fluctuations of total equity arising during the period. Losses in subsidiaries are respectively attributed to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Non-controlling interests represent the portion of profit or loss in subsidiary not held by the Company, which are determined based on the portion of non-controlling interests and profit after tax of subsidiaries, and are presented in a separate item in the consolidated income statement.

4.2 Cash and cash equivalents

Cash comprises cash on hand, demand deposits and cash in transit.

Cash equivalents are short-term investments with original maturities of three months or less from the investment date that are readily convertible to known amounts of cash and are subject to an insignificant risk upon conversion into cash at the end of the accounting period.

Demand deposits and cash equivalents are included in "Cash and cash equivalents" only when the Company has unrestricted access to such funds.

4.3 Held-to-maturity investments

Held-to-maturity investments are investments held to maturity for the purpose of earning periodic interest, comprising: term deposits, valuable papers (treasury bills, promissory notes, certificates of deposit), bonds, preferred shares classified as financial liabilities, loans, and other held-to-maturity investments or investments of a similar nature, excluding derivative instruments.

Held-to-maturity investments are initially recognized at the actual amount paid to acquire the investment. Where a discount or premium arises on acquisition, the Company amortizes such discount or premium to financial income using the straight-line method, as appropriate over the term of the investment. Where the periodic amortized premium of a held-to-maturity investment exceeds the periodic income at the nominal interest rate of that investment, the difference is recognized in financial expenses.

An allowance for held-to-maturity investments is made at the reporting date where there is an indication or evidence that a held-to-maturity investment of the Company may be impaired.

4.4 Receivables

Receivables include trade receivables and other receivables.

- Trade receivables are trade-related receivables arising from buying-selling transactions between the Company and its customers;
- Other receivables are non-trade receivables, which are not related to buying-selling or intra-company transactions.

Receivables are recognized at no more than their recoverable amount, determined as cost less an allowance for doubtful debts. The allowance for doubtful debts represents the estimated loss as at the end of the reporting period for receivables that are overdue, or not yet due but for which there is evidence that the receivable may be impaired because the debtor has died, disappeared, absconded, or is unlikely or unable to settle the debt; has become bankrupt; is undergoing bankruptcy or dissolution proceedings; is being prosecuted, detained or tried; is subject to judgment enforcement; is suffering from a serious illness; enforcement of judgment has been requested but cannot be carried out; a debt-recovery lawsuit has been filed but proceedings have been suspended; or for other reasons.

For overdue receivables, the Company estimates the allowance based on an ageing analysis, as follows:

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

(These notes form part of and should be read in conjunction with the accompanying financial statements)

- 30% of the value of receivables overdue from 6 months to under 1 year.
- 50% of the value of receivables overdue from 1 year to under 2 years.
- 70% of the value of receivables overdue from 2 years to under 3 years.
- 100% of the value of receivables overdue for 3 years or more.

Receivables are monitored in detail by original term, remaining term at the end of the accounting period, by original currency and by debtor.

4.5 Inventories

Inventories are stated at the lower of cost and net realizable value.

Cost of inventories comprises costs of purchase, costs of conversion and other directly attributable costs incurred in bringing the inventories to their present location and condition.

Net realizable value is the estimated selling price less the estimated costs of completion and the estimated costs necessary to make the sale.

The quantity and value of inventories issued are determined on a transaction-by-transaction basis and accounted for using the weighted average method.

An allowance for decline in the value of inventories is recognized for each inventory item where its net realizable value is lower than its cost.

4.6 Tangible fixed assets

Cost

Tangible fixed assets are stated at cost less accumulated depreciation.

Cost comprises the purchase price and all costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Company.

Subsequent costs are recognized as part of the cost of a tangible fixed asset only when it is determined that such costs increase the future economic benefits derived from the use of the asset beyond its originally assessed standard of performance. Costs that fail to meet this criterion are recognized as operating expenses in the period.

Depreciation

Tangible fixed assets are depreciated using the straight-line method over their estimated useful life. The depreciation periods are consistent with Circular No. 45/2013/TT-BTC dated 25 April 2013 of the Ministry of Finance, as follows:

<u>Asset category</u>	<u>Depreciation period (years)</u>
Buildings, architectures	35
Machinery, equipment	5 - 10
Motor vehicles	6 - 10
Office equipment	3 - 10
Other tangible fixed assets	5 - 10

4.7 Intangible fixed assets

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (cont'd)
(These notes form part of and should be read in conjunction with the accompanying financial statements)

Cost

Intangible fixed assets are stated at cost less accumulated amortization.

The cost of an intangible fixed asset comprises all costs incurred by the Company to acquire the asset and bring it to the condition necessary for it to be capable of operating in the manner intended by the Company.

Land use rights

Intangible fixed assets being land use rights include:

- Land use rights granted by the State for a fee, or acquired through a lawful transfer of land use rights (including land use rights with a definite term and land use rights with an indefinite term);
- Prepaid land rental (either paid for the entire lease term or prepaid for multiple years, with at least five years of the prepaid lease term remaining) under land lease agreements entered into before the effective date of the 2003 Land Law, for which a land use right certificate has been issued by the competent authority.

The cost of land use rights is the amount paid by the Company to lawfully obtain the land use rights (including amounts paid to the transferor, compensation and site clearance costs, ground levelling costs, registration fees, etc.).

Subsequent costs relating to intangible fixed assets are recognized as part of the cost of the asset only when it is determined that such costs increase the future economic benefits of the asset beyond its originally assessed level of performance. Other subsequent costs relating to intangible fixed assets are recognized as operating expenses in the period.

Amortization

Intangible fixed assets being land use rights with an indefinite term are not amortized. For land use rights with a definite term, the amortization period is the period over which the Company is permitted to use the land.

Intangible fixed assets are amortized using the straight-line method over their estimated useful lives. The amortization periods are consistent with Circular No. 45/2013/TT-BTC dated 25 April 2013 of the Ministry of Finance.

<u>Asset category</u>	<u>Amortization period (years)</u>
Computer software	2 – 10
Website	3
Land use rights	40

4.8 Leases

Operating leases are leases of fixed assets under which substantially all the risks and rewards incidental to ownership of the assets lie with the lessor. Lease payments under operating leases are recognized in the Income Statement on a straight-line basis over the lease term.

4.9 Construction in progress

Construction in progress reflects costs incurred on capital construction projects (including new purchases, new construction, periodic repairs, upgrades and renovations) relating to fixed assets and

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (cont'd)
(These notes form part of and should be read in conjunction with the accompanying financial statements)

investment property, and costs of nurturing and caring for biological assets during the construction period prior to maturity. These costs are directly attributable to assets that are in progress, not yet completed, or completed but not yet put into use as at the end of the reporting period.

4.10 Prepaid expenses

Prepaid expenses are reported as short-term or long-term prepaid expenses. These are expenditures that have been incurred but relate to the operations of more than one accounting period and are therefore allocated to the respective accounting periods on an appropriate basis. The Company's primary prepaid expenses comprise:

- Land rental, allocated on a straight-line basis over the lease term.
- Tools and supplies put into use, allocated on a straight-line basis over a period of up to 3 years.
- Other prepaid expenses: The Company selects an appropriate allocation method and allocation basis over the period in which economic benefits are expected to be generated based on the nature and extent of the prepaid expenses.

4.11 Payables

Payables comprise trade payables and other payables.

- Trade payables are trade-related payables, arising from buying-selling transactions between the Company and its suppliers;
- Other payables are non-trade payables, which are not related to buying-selling or intra-company transactions.

Payables are recognized at cost, which is not less than the amount required to settle the obligation, and are classified as current and non-current based on their remaining term as at the reporting date.

Payables are monitored in detail by creditor, original term, remaining term and original currency.

4.12 Accrued expenses

Accrued expenses are recognized for amounts to be paid in the future relating to goods or services already received from suppliers, or already supplied to customers, during the reporting period but not yet actually paid because the required supporting documents and accounting records are not yet available.

4.13 Deferred revenue

Deferred revenue comprises amounts received in advance by the Company for one or more accounting periods in respect of the lease of assets, and other deferred revenue (such as revenue corresponding to the value of goods or services, or discounts to be granted to customers under a loyalty program, etc.)

Based on the nature of the amounts received in advance, the Company selects and consistently applies an allocation method and basis appropriate to the stage of completion of the related performance obligations and the economic substance of the transaction.

4.14 Loans and finance lease liabilities

Loans and finance lease liabilities are stated at cost and classified as current and non-current based on their remaining term at the end of the accounting period.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (cont'd)*(These notes form part of and should be read in conjunction with the accompanying financial statements)*

The Company monitors loans and finance lease liabilities by creditor, loan agreement, original term, remaining term and original currency.

Borrowing costs

Before 1 January 2026, borrowing costs (comprising interest expense and other costs directly attributable to borrowings) were recognized as operating expenses in the period in which they were incurred.

From 1 January 2026, borrowing costs directly attributable to a loan (other than interest payable), such as appraisal fees, audit fees, loan documentation costs and loan arrangement fees, are amortized over the term of the loan.

Capitalization of borrowing costs

Borrowing costs are capitalized in accordance with Vietnamese Accounting Standard No. 16 "Borrowing costs".

Borrowing costs relating to specific borrowings used solely for the investment in, construction of, or creation of a specific asset of the Company are capitalized as part of the cost of that asset. For general borrowings, the amount of borrowing costs eligible for capitalization during the accounting period is determined by applying a capitalization rate to the weighted average cumulative expenditure incurred on the investment in, construction of, or production of that asset.

Capitalization of borrowing costs is suspended during periods in which active development of a qualifying asset is interrupted, unless such interruption is a necessary part of the process. Capitalization ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete.

Borrowing costs relating to loans used to invest in subsidiaries, joint ventures or associates are not capitalized.

4.15 Deferred corporate income tax

Deferred corporate income tax is determined for temporary differences at the end of the accounting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax is recognized for all temporary differences, except for temporary differences arising from the initial recognition of an asset or liability in a transaction that does not affect either accounting profit or taxable profit (tax loss) at the time of the transaction.

Deferred tax liabilities are recognized for all taxable temporary differences, while deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which deductible temporary differences, unused tax losses and unused tax incentives can be utilized. The carrying amount of deferred tax assets is reviewed at the end of the accounting period to ensure that sufficient taxable profit will be available to enable part or all of the deferred tax asset to be utilized. Previously unrecognized deferred tax assets are reviewed at the end of the accounting period and are recognized to the extent that it has become probable that future taxable profit will allow such previously unrecognized deferred tax assets to be utilized.

Deferred tax is measured at the tax rates that are expected to apply in the year the asset is realized or the liability is settled, based on tax rates that have been enacted or substantively enacted as at the end of the accounting period.

Deferred tax assets and deferred tax liabilities are offset when the taxable temporary differences and deductible temporary differences relate to the same taxable entity and are settled with the same tax authority.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

(These notes form part of and should be read in conjunction with the accompanying financial statements)

4.16 Owners' equity***Share capital***

Share capital reflects the actual capital contributed by shareholders.

Profit distribution

Undistributed after-tax profit reflects the Company's operating results (profit or loss) after corporate income tax and the distribution of profits or treatment of losses.

After-tax profit is appropriated to funds and distributed to shareholders in accordance with the Company's Charter or the Resolution of the General Meeting of Shareholders.

Dividends and profits paid to shareholders shall not exceed undistributed after-tax profit, with consideration given to non-cash items included in undistributed after-tax profit that may affect cash flows and the Company's ability to pay dividends.

4.17 Revenue and other income

- Revenue from the sale of goods and the rendering of services is recognized when the Company has obtained, or will obtain, economic benefits, the amount of revenue can be reliably measured, and the following conditions are also met:
 - ✓ Revenue from the sale of goods is recognized when the significant risks and rewards of ownership of the goods have been transferred to the buyer and there is no significant uncertainty regarding the sale price or the possibility of return of the goods;
 - ✓ Revenue from the rendering of services is recognized when the services have been completed. Where services are rendered over multiple accounting periods, revenue for each period is recognized based on the stage of completion of the services at the end of the reporting period.
- Financial income is recognized when the amount of income can be reliably measured and it is probable that economic benefits will flow to the Company from the transaction.
 - ✓ Interest income is recognized on a time-proportion basis using the effective interest rate;
 - ✓ Dividends and profits distributed are recognized when the Company's right to receive the dividends or profits is established. Share dividends are not recognized as financial income. Dividends received relating to the period before the investment date are recorded as a reduction in the carrying amount of the investment.
- Other income comprises income arising from activities other than the Company's operating activities and is recognized when it can be reliably measured and it is probable that economic benefits will flow the Company.

4.18 Cost of goods sold

Cost of products, goods sold and services rendered is recognized in the correct accounting period in accordance with the matching principle and conservatism principle.

Costs of inventories and services rendered which are incurred in excess of the ordinary level are charged out to cost of goods sold in the period, not to the production cost of goods and services.

The value of inventory shortages and losses, net of any compensation received, is recognized in cost of goods sold for the period.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (cont'd)
(These notes form part of and should be read in conjunction with the accompanying financial statements)

4.19 Financial expenses

Financial expenses reflect expenses incurred in financial activities, including expenses or losses relating to financial investments, costs of purchasing trading securities, borrowing costs that are not eligible for capitalization, losses on disposal of financial investments, transaction costs on the sale of financial investments; the excess of the early redemption price of issued bonds over their carrying amount; the allowance for diminution in value of trading securities and the allowance for impairment of investments in other entities; foreign exchange losses arising on the sale of foreign currency or on the retranslation of period-end monetary items denominated in foreign currency; payment discounts granted to buyers, etc.

4.20 Selling expenses and administrative expenses

Selling expenses reflect the expenses actually incurred in the sale of products and goods and the rendering of services.

Administrative expenses reflect the expenses actually incurred in connection with the general administration of the Company.

4.21 Corporate income tax expense

Corporate income tax expense comprises current tax expense and deferred tax expense.

Current corporate income tax expense comprises current CIT expense determined in accordance with the Law on Corporate Income Tax, and top-up tax expense determined in accordance with the global minimum tax rules.

Deferred corporate income tax expense is the amount of corporate income tax payable in future periods arising from the recognition of a deferred tax liability during the period or the reversal of a deferred tax asset recognized in prior periods.

4.22 Financial instruments

Initial recognition

Financial assets

At initial recognition, a financial asset is recognized at cost plus transaction costs directly attributable to the acquisition of the financial asset. The Company's financial assets comprise cash on hand, deposits, trade receivables and other receivables.

Financial liabilities

At initial recognition, a financial liability is recognized at cost plus transaction costs directly attributable to the issuance of such liability. The Company's financial liabilities comprise trade payables, loans, accrued expenses and other payables.

Subsequent measurement

Currently, there are no requirements for the subsequent measurement of financial instruments.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (cont'd)
(These notes form part of and should be read in conjunction with the accompanying financial statements)

4.23 Applicable tax rates and other statutory obligations

- Value-added tax (VAT): A 10% VAT rate is applied to food and beverage services, souvenir sales, accommodation services, recreational activities, spa services, etc. An 8% VAT rate was applied to these activities from 01/01/2026 to 30/06/2026 pursuant to Resolution No. 174/2024/QH15 dated 30/11/2024 and Resolution No. 204/2025/QH15 dated 17/06/2025 of the National Assembly.
- Corporate income tax (CIT): CIT is applied at a rate of 20%.
- Other taxes and statutory obligations are fulfilled in accordance with the prevailing regulations.

4.24 Related parties

Parties are considered to be related if one party has the ability (directly or indirectly) to control, or exercise significant influence over, the other party in making financial and operating policy decisions.

<i>Of which:</i>				
- Long-term loans due within 1 year	18,183,000,000			18,663,000,000
Long-term loans and finance lease liabilities	113,184,750,000			124,280,250,000

- The Company obtained long-term loans from VietinBank – North Da Nang Branch under the following credit agreements:

Credit Agreement No. 3014888353/2024-HĐCVDADT/NHCT488-NUI THAN TAI dated 11/11/2024, with a maximum loan amount of VND100,000,000,000, a loan term of 84 months, and an interest rate determined based on the 12-month VND savings deposit rate with interest payable at maturity as quoted by the lender, plus additional capital mobilization costs and a margin of 3% per annum. The loan is intended to finance and settle construction and repair costs for infrastructure and landscaping at Nui Than Tai Hot Springs Park from 2020 to 2024;

Credit Agreement No. 3014888353/2025-HĐCVDADT/NHCT488-DHC SUOIDOI dated 24/11/2025, with a maximum loan amount of VND30,000,000,000, a loan term of 84 months, and an interest rate determined based on the 12-month VND savings deposit rate with interest payable at maturity as quoted by the lender, plus additional capital mobilization costs and a margin of 3% per annum. The purpose of the loan is to settle eligible investment costs of the project for construction and repair of infrastructure and landscaping at Nui Than Tai Hot Springs Park.

Collateral for the above loans includes:

- Land use rights: A portion of land plot No. 1, map sheet No. 46, located in Hoa Phu Commune, Hoa Vang District, Da Nang City, with an area of 728m².
 - Assets attached to the above land plot and the land leased from the State, including: guest reception building; hot mineral bath area; mud bath area; villa accommodation area; communal bathhouse; food and beverage area; spa area; administration building; wind cave; water cave; tea, coffee, wine and milk bathing area; Onsen bathhouse; and Japanese cuisine restaurant.
- This balance represents long-term loans from individuals under multiple loan agreements executed in 2024, 2025 and 2026, along with their appendices. Interest rates are adjusted as specified in each appendix. The loans are intended to support business operations, investments, and other related purposes.

34. Risk management

a) Capital risk management

The Company manages its capital to ensure that it will be able to continue as a going concern while maximizing the return to the shareholders through the optimization of the debt and equity balance.

b) Financial risk management

Financial risks include market risk (including exchange rate risk, interest rate risk, price risk), credit risk, and liquidity risk

Market risk management: The Company's activities expose it primarily to the financial risks of changes in interest rates and prices.

Interest rate risk management

The Company's interest rate risk mainly derives from interest bearing loans which are arranged. To mitigate this risk, the Company estimates the impact of interest expenses on periodic business results as well as making analysis and projection to select appropriate time to repay the loans. The Management assesses that the risk of unexpected interest rate fluctuations is low.

Price risk management

The Company procures raw materials and goods from domestic suppliers to support its business operations, thereby exposing itself to the risk of fluctuations in input materials prices. To mitigate this risk, the Company selects reputable suppliers with long-standing business relationships and stays informed of price changes in a timely manner. Besides, the Company compares prices across different suppliers to obtain the most reasonable purchasing costs. Given these price management policies, the Management assess that the risk of unexpected price fluctuations is at a controllable level.

Credit risk management

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company exercises strict control over partner selection, contract execution, payment approval, and receivables management. Individual customers are required to make payment at the time the services are rendered; therefore, credit risk virtually does not arise. For corporate clients, the Company enforces strict credit policies within contracts and maintains a strong debt collection capacity. As a result, the Management assesses that the Company is not exposed to significant credit risk from customers.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (cont'd)*(These notes form part of and should be read in conjunction with the accompanying financial statements)***Liquidity risk management**

To ensure the availability of funds to meet present and future financial obligations, the Company manages liquidity risk by regularly monitoring and maintaining sufficient cash reserve, optimizing idle cash flows, making use of credit from customers and counterparties, controlling maturing liabilities in relative to maturing assets and the amount of funds that can be generated within that period.

The Company's aggregate financial liabilities are categorized in line with their maturity as follows:

30/06/2026	Within 1 year	Over 1 year	Total
Trade payables	22,277,134,892	-	22,277,134,892
Accrued expenses	1,720,431,019	-	1,720,431,019
Loans and finance lease liabilities	38,498,327,663	124,280,250,000	162,778,577,663
Other payables	375,889,180	-	375,889,180
Total	62,871,782,754	124,280,250,000	187,152,032,754

01/01/2026	Within 1 year	Over 1 year	Total
Trade payables	12,007,642,240	-	12,007,642,240
Accrued expenses	797,748,521	-	797,748,521
Loans and finance lease liabilities	38,182,876,547	113,184,750,000	151,367,626,547
Other payables	301,628,796	-	301,628,796
Total	51,289,896,104	113,184,750,000	164,474,646,104

The Management acknowledges that the Company is currently exposed to liquidity risk but believes that it can generate sufficient cash flows to meet its financial obligations as they fall due.

The Company's available financial assets are drawn up on a net asset basis as follows:

30/06/2026	Within 1 year	Over 1 year	Total
Cash and cash equivalents	15,997,914,141	-	15,997,914,141
Held-to-maturity investments	19,843,834,247	-	19,843,834,247
Trade receivables	366,880,600	-	366,880,600
Other receivables	3,681,967,452	-	3,681,967,452
Total	39,890,596,440	-	39,890,596,440

01/01/2026	Within 1 year	Over 1 year	Total
Cash and cash equivalents	7,023,911,683	-	7,023,911,683
Trade receivables	158,575,564	-	158,575,564
Other receivables	3,292,970,595	-	3,292,970,595
Total	10,475,457,842	-	10,475,457,842

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (cont'd)*(These notes form part of and should be read in conjunction with the accompanying financial statements)***35. Segment reporting**

According to Vietnamese Accounting Standard No. 28 and the guidance thereon, the Company is required to prepare segment reporting. Accordingly, a segment is a distinguishable component of the Company that is engaged in providing related products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), and that is subject to risks and earns returns that are different from those of other segments.

Based on the Company's actual operations, the Management has assessed that business segments and geographical segments have no differences in bearing risks and obtaining returns. Accordingly, the Company operates in a single business segment, being the provision of services related to entertainment, recreation and leisure, and a single geographical segment, being Da Nang City, Vietnam.
