Dragon Capital Vietfund Management Joint Stock Company Statement of the Board of Management

The Board of Management of Dragon Capital Vietfund Management Joint Stock Company (“the Company”) presents this statement and the accompanying consolidated interim financial statements of the Company and its subsidiary (collectively “the Group”) for the six-month period ended 30 June 2026.

The Board of Management is responsible for the preparation and true and fair presentation of the consolidated interim financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises, Circular No. 125/2011/TT-BTC dated 5 September 2011 issued by the Ministry of Finance on promulgation of accounting guidance for investment fund management companies and the relevant statutory requirements applicable to interim financial reporting. In the opinion of the Board of Management:

- (a) the consolidated interim financial statements set out on pages 5 to 73 give a true and fair view of the consolidated financial position of the Group as at 30 June 2026, and of their consolidated results of operations and their consolidated cash flows for the six-month period then ended, in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises, Circular No. 125/2011/TT-BTC dated 5 September 2011 issued by the Ministry of Finance on promulgation of accounting guidance for investment fund management companies and the relevant statutory requirements applicable to interim financial reporting; and
- (b) at the date of this statement, there are no reasons to believe that the Group will not be able to pay its debts as and when they fall due.

The Board of Management has, on the date of this statement, authorised the accompanying consolidated interim financial statements for issue.

On behalf of the Board of Management

Le Anh Tuan

INTERIM FINANCIAL STATEMENTS REVIEW REPORT

To the Shareholders Dragon Capital Vietfund Management Joint Stock Company

We have reviewed the accompanying consolidated interim financial statements of Dragon Capital Vietfund Management Joint Stock Company ("the Company") and its subsidiary, which comprise the consolidated balance sheet as at 30 June 2026, the consolidated statements of income, cash flows and changes in equity for the six-month period then ended and the explanatory notes thereto which were authorised for issue by the Company's Board of Management on 14 August 2026, as set out on pages 5 to 73.

Management's Responsibility

The Company's Board of Management is responsible for the preparation and true and fair presentation of these consolidated interim financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises, Circular No. 125/2011/TT-BTC dated 5 September 2011 issued by the Ministry of Finance on promulgation of accounting guidance for investment fund management companies and the relevant statutory requirements applicable to interim financial reporting, and for such internal control as the Board of Management determines is necessary to enable the preparation of consolidated interim financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on these consolidated interim financial statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review Engagements No. 2410 – *Review of interim financial information performed by the independent auditor of the entity*.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Auditor's Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial statements do not give a true and fair view, in all material respects, of the consolidated financial position of Dragon Capital Vietfund Management Joint Stock Company and its subsidiary as at 30 June 2026 and of their consolidated results of operations and their consolidated cash flows for the six-month period then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises, Circular No. 125/2011/TT-BTC dated 5 September 2011 issued by the Ministry of Finance on promulgation of accounting guidance for investment fund management companies and the relevant statutory requirements applicable to interim financial reporting.

2. Basis of preparation

(a) Statement of compliance

The consolidated interim financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises, Circular No. 125/2011/TT-BTC dated 5 September 2011 (“Circular 125”) issued by the Ministry of Finance on promulgation of accounting guidance for investment fund management companies and the relevant statutory requirements applicable to interim financial reporting. These standards and statutory requirements may differ in some material respects from International Financial Reporting Standards and the generally accepted accounting principles and standards of other countries. Accordingly, the accompanying consolidated interim financial statements are not intended to present the consolidated financial position, consolidated results of operations and consolidated cash flows in accordance with generally accepted accounting principles and practices in countries or jurisdictions other than Vietnam. Furthermore, their utilisation is not designed for those who are not informed about Vietnamese accounting principles, procedures and practices applicable to investment fund management companies.

(b) Basis of measurement

The consolidated interim financial statements, except for the consolidated statement of cash flows, are prepared on the accrual basis using the historical cost concept. The consolidated statement of cash flows is prepared using the direct method.

(c) Accounting period

The annual accounting period of the Group is from 1 January to 31 December. These consolidated interim financial statements are prepared for the six-month period ended 30 June 2026.

(d) Accounting and presentation currency

The Company’s accounting currency is Vietnam Dong (“VND”), which is also the currency used for consolidated interim financial statements presentation purpose.

(e) Accounting documentation system

The Group uses accounting software to record its transactions and accounting book form is general ledger.

3. Adoption of new guidance on accounting system for enterprises

On 27 October 2025, the Ministry of Finance issued Circular No. 99/2025/TT-BTC providing guidance on the Vietnamese Accounting System for Enterprises (“Circular 99”). Circular 99 replaces the previous guidance on Vietnamese Accounting System for Enterprises under Circular No. 200/2014/TT-BTC dated 22 December 2014 (“Circular 200”) and other circulars amending and supplementing Circular 200. Circular 99 is effective from 1 January 2026 and applicable for accounting periods beginning on or after 1 January 2026.

On 20 April 2026, the Ministry of Finance issued Circular No. 43/2026/TT-BTC (“Circular 43”), which amends and supplements certain articles of Circular No. 202/2014/TT-BTC dated 22 December 2014 on the guidance for preparation and presentation of consolidated financial statements. Circular 43 is effective from the date issuance and applicable to the preparation and presentation of consolidated financial statements for accounting periods beginning on or after 1 January 2026.

The Group has adopted the applicable requirements of Circular 99 and Circular 43 effective from 1 January 2026 on a prospective basis, with reclassification of certain corresponding items, unless Circular 99 and Circular 43 specifically stipulate otherwise. The significant changes to the Group’s accounting policies and their effects on the consolidated interim financial statements, if any, are disclosed in Note 4(b), Note 4(d), Note 4(e) and Note 4(r)(iv).

4. Summary of significant accounting policies

The following significant accounting policies have been adopted by the Group in the preparation of these consolidated interim financial statements.

Except for accounting policies described in Note 4(b), Note 4(d), Note 4(e) and Note 4(r)(iv), the accounting policies that have been adopted by the Group in the preparation of these consolidated interim financial statements are consistent with those adopted in the preparation of the most recent annual financial statements.

(a) Basic of consolidation

(i) Common control business combination

A business combination involving entities under common control is a transaction whereby the combining entities are ultimately controlled by the same controlling party (“the Controlling Party”) both before and after the combination, and that control is not transitory. Such common control business combination is specifically excluded from the scope of Vietnamese Accounting Standard No. 11 - *Business Combination* and in selecting its accounting policy with respect to such transaction, the Group has considered Vietnamese Accounting Standard No. 01 - *Framework* and Vietnamese Accounting Standard No. 21 - *Presentation of Financial Statements*. Based on these standards, the Company has adopted the merger (“carry-over”) basis of accounting. The assets and liabilities of the combining companies are consolidated using the existing book values from the the Controlling Party’s perspective. Any difference between the cost of acquisition and net assets acquired is recorded in other capital under equity and is subsequently transferred to retained profits on a straight-line basis over nine months from the acquisition date, being the period over which management expects the effects of the restructuring transaction to be realised.

The consolidated statements of income and cash flows include the results of operations and cash flows of the combining companies from the acquisition date.

(ii) *Subsidiary*

Subsidiary is an entity controlled by the Group. The financial statements of the subsidiary are included in the consolidated interim financial statements from the date that control commences until the date that control ceases.

(iii) *Transactions eliminated on consolidation*

Intra-group transactions, balances, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated interim financial statements. Foreign currency difference arising on intra-group monetary items, whether short-term or long-term are recorded in the consolidated statement of income.

(b) *Foreign currency transactions*

Transactions in currencies other than VND during the period have been translated into VND at rate approximating actual rates of exchange ruling at the transaction dates.

All foreign exchange differences are recorded in the consolidated statement of income.

Prior to 1 January 2026

Monetary assets and liabilities denominated in currencies other than VND are translated into VND at the account transfer buying rate and selling rate, respectively, at the end of the accounting period quoted by the commercial bank where the Company or its subsidiary most frequently conducts transactions.

From 1 January 2026

Monetary assets and liabilities denominated in currencies other than VND, except for demand deposits, are translated into VND at the average of the account transfer buying rate and selling rate at the end of the accounting period quoted by the commercial bank where the Company or its subsidiary most frequently conducts transactions. Demand deposits denominated in currencies other than VND are translated into VND at the average of the account transfer buying rate and selling rate at the end of the accounting period quoted by the commercial bank where the Company or its subsidiary maintains the demand deposit accounts.

The change in this accounting policy does not have any material effect on the consolidated interim financial statements of the Group for the six-month period ended 30 June 2026.

(c) Translation of financial statements from the accounting currency to the presentation currency

For the purpose of presenting the consolidated interim financial statements in VND, all assets and liabilities are translated to VND using the average of the account transfer buying rates and selling rates at the end of the accounting period quoted by the commercial bank where the Company most frequently conducts transactions. Capital is translated at historical exchange rates. Retained profits are derived from the translated net profits from which they were appropriated. Revenue, income, expenses and cash flows during the period are translated at the exchange rates which approximate actual exchange rates ruling on the date of transactions.

Foreign exchange differences arising from the translation of financial statements from accounting currency to the presentation currency are included in “Foreign exchange differences” under equity.

(d) Cash and cash equivalents

Cash comprises cash on hand and demand deposit. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

Prior to 1 January 2026

Accrued interest receivable on cash equivalents (term deposits at banks with original term to maturity of not more than three months) is presented as “Other short-term receivables”.

From 1 January 2026

Accrued interest receivable on cash equivalents (term deposits at banks with original term to maturity of not more than three months) is presented as part of the carrying amount of cash equivalents.

As a result of the change in the accounting policy, comparative information as at 31 December 2025 and for the six-month period ended 30 June 2025 has been reclassified, where necessary, to conform with the current period’s presentation (Note 37).

(e) Investments

(i) Held-for-trading securities

Held-for-trading securities are those held by the Group for trading purpose i.e, purchase for resale with the aim of making profits over a short period of time.

Prior to 1 January 2026

Held-for-trading securities are initially recognised at cost which include purchase price plus any directly attributable transaction costs such as brokerage charge, transaction fees, providing information fee and bank charge (if any).

Form B 09a – CTQ

*(Issued under Circular No. 125/2011/TT-BTC
dated 5 September 2011 of the Ministry of Finance)*

From 1 January 2026

Held-for-trading securities are initially recognised at cost which include purchase price only. Any transaction costs are charged to the consolidated statement of income in the period in which the costs are incurred.

The change in this accounting policy does not have any material effect on the consolidated interim financial statements of the Group for the six-month period ended 30 June 2026.

Subsequent to initial recognition, held-for-trading securities are measured at cost less allowance for diminution in value.

Allowance for diminution in value of held-for-trading securities is made for each type of securities when the actual market price falls below its carrying amount in accordance with the guidance of Circular No. 48/2019/TT-BTC dated 8 August 2019 (“Circular 48”) issued by the Ministry of Finance guiding on making and utilising allowance for diminution of inventories, investments, bad debts and warranties for products, goods, services and construction works at the enterprise and Circular No. 24/2022/TT-BTC dated 7 April 2022 (“Circular 24”) amending and supplementing a number of articles of Circular 48.

For listed securities (including stocks, fund certificates, derivative securities, listed covered warrants): actual market price is the closing price at the latest trading date until the end of the accounting period. In case listed securities have not been traded within 30 days until the end of the accounting period, the Group shall determine allowance for each security to be equal to the total actual capital of owners in the investee minus (-) the owner’s equity of the investee multiply (x) by the Group’s actual ownership percentage (%) of charter capital of the investee at the end of the accounting period.

For shares registered for trading on UPCoM and state-owned enterprises conducting equitisation in the form of a public offering of securities, actual market price is the average reference price in the nearest 30 consecutive trading days until the end of the accounting period announced by the Stock Exchange. In case shares have registered for trading on the UPCoM have not been traded within 30 days before the end of the accounting period, the Group shall determine allowance for each security to be equal to the total actual capital of owners in the investee minus (-) the owner’s equity of the investee multiply (x) by the Group’s actual ownership percentage (%) of charter capital of the investee at the end of the accounting period.

For open-ended fund certificates, actual market price is the net asset value of the fund divided by number of fund units at the end of the accounting period announced by the fund.

For unlisted shares and shares not yet registered for trading on UPCoM, the Group shall determine allowance for each security to be equal to the total actual capital of owners in the investee minus (-) the owner’s equity of the investee multiply (x) by the actual Group’s ownership percentage (%) of charter capital of the investee at the end of the accounting period.

The allowance for diminution in value of held-for-trading securities mentioned above is reversed if the recoverable amount increases after the allowance being recognised. An allowance is reversed only to the extent that the securities’ carrying amounts does not exceed the carrying amount that would have been determined if no allowance had been recognised.

(ii) Held-to-maturity investments

Held-to-maturity investments are those that the Company or its subsidiary's management has the intention and ability to hold until maturity. Held-to-maturity investments include investments in short-term and long-term certificates of deposit.

Prior to 1 January 2026

These investments are initially recognised at costs. Subsequent to initial recognition, the investments are stated at costs less allowance for held-to-maturity investments.

Accrued interest receivable on held to maturity investments is presented as "Other short-term receivables".

From 1 January 2026

These investments are initially recognised at costs. Subsequent to initial recognition, the investments are stated at amortised costs less allowance for held-to-maturity investments. Any discount or premium are amortised on a straight-line basis over the term of the investments.

Accrued interest receivable on held-to-maturity investments is presented as part of the carrying amount of held-to-maturity investments.

The change in this accounting policy does not have any material effect on the consolidated interim financial statements of the Group for the six-month period ended 30 June 2026.

(f) Accounts receivable

Trade and other receivables are stated at cost less allowance for doubtful debts.

The allowance for overdue receivables from operating activities and other receivables is calculated based on aging analysis and specific provisioning rates as below:

Overdue status	Allowance rate
Past due 6 months – 1 year	30%
Past due 1 – 2 years	50%
Past due 2 – 3 years	70%
Past due more than 3 years	100%

Trade and other receivables that are not past due but are assessed as unlikely to be collected based on available evidence at the end of the accounting period shall have an allowance provided on case-by-case basis.

(g) Tangible fixed assets

(i) Cost

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditure incurred after tangible fixed assets have been put into operation, such as repair, maintenance and overhaul cost, is charged to the consolidated statement of income in the period in which the cost is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of tangible fixed assets beyond their originally assessed standard of performance, the expenditure is capitalised as an additional cost of tangible fixed assets.

(ii) Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of tangible fixed assets. The estimated useful lives are as follows:

▪ office equipment	3 - 8 years
▪ motor vehicles	6 years
▪ leasehold improvement	5 years

(h) Intangible fixed assets

Software

Cost of acquiring new software, which is not an integral part of the related hardware, is capitalised and treated as an intangible fixed asset. Software cost is amortised on a straight-line basis over a period ranging from 3 to 8 years.

(i) Construction in progress

Construction in progress represents the costs of intangible fixed assets which have not been fully installed. No depreciation is provided for construction in progress during the period of installation.

(j) Long-term deferred expenses

(i) Tools and instruments

Tools and instruments include assets held for use by the Group in the normal course of business whose costs of individual items are less than VND30 million and therefore not qualified for recognition as fixed assets under prevailing regulation. Costs of tools and instruments are amortised on a straight-line basis over a period ranging from over 1 year to 3 years.

(ii) Office renovation

Office renovation are initially recorded at cost and amortised on a straight-line basis over 3 years.

(k) Trade and other payables and accruals

Trade and other payables and accruals are stated at their costs.

(l) Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

(m) Taxation

Income tax on the profit or loss for the period comprises current and deferred tax. Income tax is recognised in the consolidated statement of income except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the period, using the tax rates enacted at the end of the accounting period, and any adjustment to tax payable in respect of previous period.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amounts of assets and liabilities using the tax rates enacted or substantively enacted at the end of the accounting period.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(n) Share capital

Share capital and share premium

Ordinary shares are stated at par value. Incremental costs directly attributable to the issue of ordinary shares, net of tax effects, are recognised as a deduction from share premium. The excess of proceeds from issuance of shares over the par value of shares issued is recorded as share premium.

(o) Statutory reserves

On 17 December 2021, the Ministry of Finance issued Circular No. 114/2021/TT-BTC (“Circular 114”) to abolish Circular No. 146/2014/TT-BTC (“Circular 146”) dated 6 October 2014 issued by the Ministry of Finance to provide guidance on the financial regime for securities companies, fund management companies. Circular 114 is effective from 1 February 2022. Consequently, the Company has ceased to allocate realised profit to statutory reserves since 2022. According to guidance of Circular 114, the existing balances of these funds can be used as follows:

- The reserve to supplement share capital that was already made under Circular 146 will be used to supplement share capital as promulgated under Securities Law No. 54/2019/QH14 and other legal regulations. The Company has not yet made any decision regarding the existing balance of this reserve at 30 June 2026 and is recognised as “Other capital reserve”.
- The financial reserve can be used to supplement to share capital or distributed in accordance with the shareholders’ decision at the Company’s General Meeting of Shareholders as promulgated under Securities Law No. 54/2019/QH14 and other legal regulations. In 2024, the Company transferred the existing balance of the financial reserve fund to retained profits according to the Resolution of the shareholders at the Company’s General Meeting of Shareholders.

(p) Classification of financial instruments

Solely for the purpose of providing disclosures about the significance of financial instruments to the Group’s consolidated financial position and consolidated results of operations and the nature and extent of risk arising from financial instruments, the Group classifies its financial instruments as follows:

(i) Financial assets

Financial assets at fair value through profit or loss

A financial asset at fair value through profit or loss is a financial asset that meets either of the following conditions:

- It is considered by the management as held for trading. A financial asset is considered as held for trading if:
 - it is acquired principally for the purpose of selling it in the near term;
 - there is evidence of a recent pattern of short-term profit-taking; or
 - a derivative (except for a derivative that is financial guarantee contract or a designated and effective hedging instrument).
- Upon initial recognition, it is designated by the Group as at fair value through profit or loss.

Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and a fixed maturity that the Group has the positive intention and ability to hold to maturity, other than:

- those that the Group upon initial recognition designates as at fair value through profit or loss;
- those that the Group designates as available-for-sale; and
- those that meet the definition of loans and receivables.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market, other than those:

- that the Group intends to sell immediately or in the near term, which are classified as held for trading, and those that the Group on initial recognition designates as at fair value through profit or loss;
- that the Group upon initial recognition designates as available-for-sale; or
- for which the Group may not recover substantially all of its initial investment, other than because of credit deterioration, which are classified as available-for-sale.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available for sale or that are not classified as:

- financial assets at fair value through profit or loss;
- held-to-maturity investments; or
- loans and receivables.

(ii) Financial liabilities

Financial liabilities at fair value through profit or loss

A financial liability at fair value through profit or loss is a financial liability that meets either of the following conditions:

- It is considered by the management as held for trading, A financial liability is considered as held for trading if:
 - it is incurred principally for the purpose of repurchasing it in the near term;
 - there is evidence of a recent pattern of short-term profit-taking; or
 - a derivative (except for a derivative that is financial guarantee contract or a designated and effective hedging instrument).
- Upon initial recognition, it is designated by the Group as at fair value through profit or loss.

Financial liabilities carried at amortised cost

Financial liabilities which are not classified as financial liabilities at fair value through profit or loss are classified as financial liabilities carried at amortised cost.

The above described classification of financial instruments is solely for presentation and disclosure purpose and is not intended to be a description of how the instruments are measured. Accounting policies for measurement of financial instruments are disclosed in other relevant notes.

(q) Asset management for segregated accounts

The Group signs asset management agreements for segregated accounts (“SMAs”). Assets and liabilities in relation to such SMAs are recorded in off-balance sheet in accordance with Circular 125.

(r) Revenue and other income

(i) Services rendered

Securities investment consulting fee, management fee of securities investment funds, securities investment portfolio and pension funds, redemption fee and subscription fee are recognised in the consolidated statement of income when earned. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due.

(ii) Interest income

Interest income is recognised on a time proportion basis with reference to the principal outstanding and the applicable interest rate.

(iii) Gains from trading securities

Gains from trading securities is recognised in the consolidated statement of income when the Group received notice of matching for trading securities from Vietnam Securities Depository and Clearing Corporation (for listed securities) and completed asset transferred agreement (for unlisted securities).

(iv) Dividend income

Prior to 1 January 2026

Dividend income is recognised when the right to receive dividend is established. Share dividends are not recognised as financial income.

From 1 January 2026

Dividend income from shares that have been registered and centrally deposited at VSDC is recognised on the last registration date. Dividend income from shares that have not been registered with VSDC is recognised when the right to receive dividend is established. Share dividends are not recognised as financial income. Dividends received which are attributable to the period before investment acquisition date are deducted from the carrying amount of the investment.

The change in this accounting policy does not have any material effect on the consolidated interim financial statements of the Group for the six-month period ended 30 June 2026.

(s) Leases

(i) Leased assets

Assets held under leases in term of which the Group, as lessee, does not assume substantially all the risks and rewards of ownership are classified as operating leases and are not recognised in the Group's consolidated balance sheet.

(ii) Operating lease payments

Payments made under operating leases are recognised in the consolidated statement of income on a straight-line basis over the term of the lease. Lease incentives received are recognised in the consolidated statement of income as an integral part of the total lease expense, over the term of the lease.

(t) Earnings per share

The Group presents basic earnings per share ("EPS") and diluted EPS for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to the ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting both the profit or loss attributable to the ordinary shareholders and the weighted average number of ordinary shares outstanding for the effect of all dilutive potential ordinary shares. During the period, the Company had no potential ordinary shares and therefore does not present diluted EPS.

(u) Related parties

Parties are considered to be related to the Group if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions, or where the Group and the other party are subject to common control or significant influence. Related parties may be individuals or corporate entities and include close family members of any individual considered to be a related party.

Related companies refer to the major shareholders and their ultimate parent company and their subsidiaries and associates. Related parties also include funds managed by the Group.

(v) Nil balances

Items or balances required by Circular 125 that are not shown in the consolidated interim financial statements indicate nil balances.

(w) Comparative information

As this is the first set of consolidated interim financial statements prepared by the Board of Management, comparative information was derived from the balances and amounts reported in the Company's separate annual financial statements for the year ended 31 December 2025 and the separate interim financial statements for the six-month period ended 30 June 2025.

Comparative information in these consolidated interim financial statements is presented as corresponding figures. Under this method, comparative information for the prior period is included as an integral part of the current period's consolidated interim financial statements and is intended to be read only in relation to the amounts and other disclosures relating to the current period. Accordingly, the comparative information included in these consolidated interim financial statements is not intended to present the Group's consolidated financial position, consolidated results of operations or consolidated cash flows for the prior period.

5. Acquisition of a subsidiary

The Company obtained control of Dragon Capital Management (HK) Limited by acquiring 100% of its equity interests and voting rights from Dragon Capital Investment Management Limited, a major shareholder of the Company as part of internal group restructuring exercise. The acquisition was completed on 1 April 2026 upon completion of the share transfer and registration of the Company as the shareholder of Dragon Capital Management (HK) Limited. The purchase consideration of 5,000,000 Hong Kong Dollar (equivalent to VND16,830 million) is payable over a period of 36 months from the acquisition date (Note 16). The principal activities of the acquired business are the provision of advisory services and investment management services. In the three months from the acquisition date to 30 June 2026, the acquired business contributed revenue of VND247,123,513,868 and net profit before tax of VND42,575,637,397 to the Group's results.

32. Tax contingencies

The tax laws and their application in Vietnam are subject to interpretation and change over time as well as from one tax office to another. The final tax position may be subject to review and investigation by a number of authorities, who are enabled by law to impose several fines, penalties and interest charges. These facts may create tax risks in Vietnam that are substantially more significant than in other countries. The Company's Board of Management believes that it has adequately provided for tax liabilities based on its interpretation of tax legislation including corporate income tax. However, the relevant authorities may have different interpretation and the effects could be significant.

33. Financial risk management

The Group has exposure to the following risks from its use of financial instruments:

- credit risk;
- liquidity risk; and
- market risk.

(a) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from deposits in banks, held-to-maturity investments and receivables.

(i) Exposure to credit risk

The total of carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the end of the accounting period was as follows:

	Note	30/6/2026 VND	31/12/2025 VND (Reclassified)

(ii) Demand deposits at banks and cash equivalents

Demand deposits at banks and cash equivalents of the Group are mainly held with well-known financial institutions. The Board of Management does not foresee any material credit risks from these deposits and does not expect that these financial institutions may default and cause losses to the Group.

(iii) Held-to-maturity investments

Held-to-maturity investments include certificates of deposit issued by prestigious entities. The Board of Management does not foresee any material credit risks in these certificates of deposit and was not under the impression that these entities may default and cause losses to the Group.

(iv) Receivables from operating activities and other receivables

Receivables from operating activities and other receivables mainly include receivables from fund management activities. Credit risk in relation to receivables from fund management activities is considered minimal as these are receivables from funds under management of the Group. The Board of Management believes that those receivables are of high credit quality.

The maximum exposure to credit risk faced by the Group is equal to the carrying amounts of demand deposits at banks and cash equivalents, held-to-maturity investments, receivables from fund management activities and other receivables.

No receivables as of 30 June 2026 and 31 December 2025 were past due or impaired.

(b) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The financial liabilities with fixed or determinable payments have the following contractual maturities including the estimated interest payments:

As at 30 June 2026	Carrying amount VND	Contractual cash flows VND	Within 1 year VND

	28,512,009,633	28,512,009,633	28,512,009,633

(c) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's results of operations or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate as a result of changes in market interest rates.

At the end of the accounting period, the interest rate profile of the Group's interest-bearing financial instruments was as follows:

	Carrying amount 30/6/2026 VND	31/12/2025 VND (Reclassified)

(ii) Currency risk

Currency risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate as a result of changes in foreign exchange rate.

The Group had the following net monetary asset position exposed to currency risk:

	30/6/2026	31/12/2025
	VND	VND
<i>Denominated in USD</i>		
▪ Cash and cash equivalents	63,444,292,119	956,764,622

▪ Cash and cash equivalents	5,612,747,683	-
	170,772,926,544	83,190,622,962

As at 30 June 2026 and 31 December 2025, the Group's exposure to currency risk is not significant.

(iii) Equity price risk

Equity price risk is the risk that the value of financial instruments decreases as a result of the fluctuation in share price index and individual security price.

The Group invests in listed and unlisted fund certificates. Their values are affected by market price risk arising from the uncertainty in the fluctuation of the future market price of these securities. Equity price risk is managed by the Group by diversifying the investment portfolio and careful selection of securities within specified limits.

As at 30 June 2026, market price of listed fund certificates held by the Group is VND223,072,500,000 (31/12/2025: VND362,434,400,000). Had the market prices of these securities increased or decreased by 4% as at 30 June 2026 (31/12/2025: increased or decreased by 41%) with all other variables remaining constant, the Group's net profit after tax would either remain unchanged or decreased by VND13,006,342 respectively (31/12/2025: remain unchanged or decreased by VND65,655,406,170 respectively).

Equity price risk for the Group's underlying unlisted investments principally related to unlisted fund certificates. Fair value of these investments is made using appropriate methodologies taking into consideration a variety of factors, which means that the unlisted investments are also exposed to equity price risk.

Basis for determining fair value

Held-for-trading securities

For listed securities (listed fund certificates), fair value is the closing price on the latest trading day until the end of the accounting period.

For unlisted fund certificates, fair value is the net asset value of the fund divided by number of fund certificates at the end of the accounting period announced by the fund.

Other financial instruments

Fair values of the Group's other financial assets and financial liabilities are approximate their carrying amounts as at 30 June 2026 and 31 December 2025 due to the short maturities of these financial instruments.

- (*) The Group has not determined fair values of these financial instruments for disclosure in the consolidated interim financial statements because information about their market prices is not available and there is currently no guidance on determination of fair value using valuation techniques under Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and Circular 125. The fair values of these financial instruments may differ from their carrying amounts.

34. Non-cash investing activities

35. Changes in accounting estimates

In preparing these consolidated interim financial statements and annual financial statements, the Board of Management has made several accounting estimates. Actual results may differ from these estimates. There are no significant changes in accounting estimates when preparing the consolidated interim financial statements for the six-month period ended 30 June 2026 compared to those made in the most recent annual financial statements or those made in the same interim period of the prior year.

36. Seasonality or cyclical factors

The Group's result of operation is not affected by seasonality or cyclical factors.

38. Comparative information

As described in Note 3, effective from 1 January 2026, the Group has adopted the applicable requirements of Circular 99 and Circular 43. Accordingly, certain comparative information items have been reclassified to conform with the requirements of Circular 99 and Circular 43 in respect of consolidated interim financial statement presentation. A comparison of the amounts previously reported and as reclassified is as follows:
