2. Contents of disclosure:

Ho Chi Minh City Infrastructure Investment Joint Stock Company ("**Company/CII**") hereby announces to its shareholders:

On August 26, 2026, the People's Committee of Ho Chi Minh City issued Decision No. 5588/QĐ-UBND approving the selection of the consortium comprising Ho Chi Minh City Infrastructure Investment Joint Stock Company, CII Public-Private Partnership Company Limited ("**CII PPP**"), and IMIC Infrastructure Construction Joint Stock Company ("**IMIC**") as the investor under special circumstances to implement Component Project 2: **Upgrade and Expansion of National Highway 13 (from Binh Trieu Bridge to the Binh Duong Province boundary)** under the public-private partnership model, in the form of a Build – Operate - Transfer ("**BOT**") contract (the "**Project**"). The CII group holds a 51% participation interest in the consortium.

Project Overview:

- **Location:** Hiep Binh Ward, Ho Chi Minh City
- **Route length:** approximately 5.9 km
- **Total investment:** approximately VND 6,276 billion
- **Key investment components:**
 - Cross-section: 60 m wide;
 - Elevated road: 4 lanes, with a design speed of 80 km/h, serving inter-regional traffic;
 - Parallel roads: 8–10 lanes, with a design speed of 60 km/h, serving urban traffic; and

- Bridges, interchanges and technical infrastructure systems to ensure integrated operation along the entire route.
- **Expected implementation schedule:**
 - Investment preparation and construction: 2026–2028;
 - Commencement of operations: from early 2029.

When integrated with other National Highway 13 expansion projects along the same corridor, the Project will contribute to the formation of a continuous transport axis connecting central Ho Chi Minh City with the northern part of the City, while enhancing the separation of inter-regional and local traffic flows along National Highway 13.

Following its investment in the Ho Chi Minh City – Trung Luong – My Thuan Expressway Expansion Project, with a total investment of more than VND 36,000 billion, the selection of the consortium as the investor of the Project not only enables CII to further expand its investment portfolio, but also (i) reinforces CII's reputation and position in infrastructure investment; (ii) lays the foundation for CII's growth in the years ahead; and (iii) creates further opportunities for CII to participate in new projects as the Government accelerates infrastructure investment in pursuit of its double-digit economic growth target..

CII expects to continue sharing further positive developments with its shareholders in the near future.
