The number of the Company's employees as at 30 September 2026 is 1067 (31 December 2025: 1036)

2. Basis of preparation

(a) Accounting standards and system

The consolidated financial statements of the Group, which are expressed in Vietnam dong ("VND"), are prepared in accordance with Vietnamese Enterprise Accounting System and Vietnamese Accounting Standards issued by the Ministry of Finance as per:

- ▶ Decision No. 149/2001/QĐ-BTC dated 31 December 2001 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 1);
- ▶ Decision No. 165/2002/QĐ-BTC dated 31 December 2002 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 2);
- ▶ Decision No. 234/2003/QĐ-BTC dated 30 December 2003 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 3);
- ▶ Decision No. 12/2005/QĐ-BTC dated 15 February 2005 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 4); and
- ▶ Decision No. 100/2005/QĐ-BTC dated 28 December 2005 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 5).

(b) Basis of consolidation

The interim consolidated financial statements comprise the interim combined financial statements of the parent company and its subsidiaries for the period ended 31 December 2026.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Group obtains control, and continued to be consolidated until the date that such control ceases.

The interim financial statements of the subsidiaries are prepared for the same reporting year as the parent company, using consistent accounting policies.

All intra-company balances, income and expenses and unrealized gains or losses result from intra-company transactions are eliminated in full.

Non-controlling interests represent the portion of profit or loss and net assets not held by the Group and are presented separately in the interim consolidated income statement and within equity in the interim consolidated balance sheet.

Impact of change in the ownership interest of a subsidiary, without a loss of control, is recorded in undistributed earnings.

(c) Fiscal year

The Company's fiscal year applicable for the preparation of its combined financial statements starts on 1 January and ends on 31 December.

(d) Accounting currency

The interim consolidated financial statements are prepared in VND which is also the Company's accounting currency.

3. Summary of significant accounting policies

(a) Foreign currency transactions

Transactions in currencies other than the Company's reporting currency (VND) are recorded at the actual transaction exchange rates at transaction dates which are determined as follows:

- Transactions resulting in receivables are recorded at the buying exchange rates of the commercial banks designated for collection;
- Transactions resulting in liabilities are recorded at the selling exchange rates of the commercial banks designated for payment;
- Payments for assets or expenses without liabilities initially being recognised is recorded at the buying exchange rates of the commercial banks that process these payments.

At the end of the period, monetary balances denominated in foreign currencies are translated at the actual exchange rates at the interim combined balance sheet dates which are determined as follows:

- Monetary assets are translated at buying exchange rate of the commercial bank where the Company conduct transactions regularly;
- Monetary liabilities are translated at selling exchange rate of the commercial bank where the Company conduct transactions regularly.

All foreign exchange differences incurred are taken to the interim consolidation income statement.

(b) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash at banks and short-term, highly liquid investments with an original maturity of less than three months that are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value.

(c) Investments

Held-for-trading securities

Held-for-trading securities are stated at their acquisition costs.

Provision for diminution in value of held-for-trading securities and investments in capital

Provision of the investment is made when there are reliable evidences of the diminution in value of those investments at the balance sheet date. Increases and decreases to the provision balance are recorded as finance expense in the interim combined income statement.

Held-to-maturity investments

Held-to-maturity investments are stated at their acquisition costs. After initial recognition, held-to-maturity investments are measured at recoverable amount. Any impairment loss incurred is recognised as expense in the interim combined financial statements and deducted against the value of such investments.

(d) Receivables

Receivables are presented in the interim consolidated financial statements at the carrying amounts due from customers and other debtors, after provision for doubtful debts.

(e) Inventories

Inventories are measured at their historical costs. The cost of inventories comprise costs of purchase, costs of conversion (including raw materials, direct labor cost, other directly related cost, manufacturing general overheads allocated based on the normal operating capacity) incurred in bringing the inventories to their present location and condition.

In case the net realizable value is lower than the original price, it must be calculated according to the net realizable value.

Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs to complete and the estimated costs necessary to make the sale.

The perpetual method is used to record inventories.

(f) Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of a tangible fixed asset comprises its purchase price and any directly attributable costs of bringing the tangible fixed asset to working condition for its intended use.

Expenditures for additions, improvements and renewals are added to the carrying amount of the assets and expenditures for maintenance and repairs are charged to the interim combined income statement as incurred.

When tangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the interim combined income statement.

Depreciation

Depreciation of tangible fixed assets are calculated on a straight-line basis over the estimated useful life of each asset as follows:

▪ Buildings and structures	10 – 50 years
▪ Machinery and equipment	7 – 12 years
▪ Means of transportation	6 – 8 years
▪ Office equipment	3 – 8 years

(g) Intangible fixed assets

Intangible fixed assets are stated at cost less accumulated amortisation.

The cost of an intangible fixed asset comprises its purchase price and any directly attributable costs of preparing the intangible fixed asset for its intended use.

Expenditures for additions, improvements are added to the carrying amount of the assets and other expenditures are charged to the interim combined income statement as incurred.

When intangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the interim combined income statement

Land use rights

The advance payment for land rental, of which the land lease contracts have effectiveness prior to 2003 and Land use right certificate has been obtained, are recorded as intangible fixed asset according to Circular No. 45/2013/TT-BTC issued by the Ministry of Finance on 25 April 2013 **guiding the management, use and depreciation of fixed assets (“Circular 45”)**.

(h) Prepaid expenses

Prepaid expenses are reported as short-term or long-term prepaid expenses on the interim combined balance sheet and amortised over the year for which the amounts are paid or the year in which economic benefits are generated in relation to these expenses.

Prepaid land rentals

The prepaid land rental represents the unamortised balance of advance payment made in accordance with land lease contract with defined lease period. Such prepaid rental is classified as long-term prepaid expenses for allocation to the interim combined income statement over the remaining lease period, according to **Circular 45**.

(i) Payables and accruals

Payables and accruals are recognised for amounts to be paid in the future for goods and services received, whether or not billed to the Company.

(j) Treasury shares

Own equity instruments which are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss upon purchase, sale, issue or cancellation of the Company’s own equity instruments.

(k) Taxation

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted as at the interim combined balance sheet date.

Current income tax is charged or credited to the interim combined income statement, except when it relates to items recognised directly to equity, in which case the current income tax is also dealt with in equity.

Current income tax assets and liabilities are offset when there is a legally enforceable right for the Company to set off current tax assets against current tax liabilities and when the Company intends to settle its current tax assets and liabilities on a net basis.

Deferred tax

Deferred tax is provided using the liability method on temporary differences at the combined balance sheet date between the tax base of assets and liabilities and their carrying amount for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- ▶ where the deferred tax liability arises from the initial recognition of an asset or liability in a transaction which at the time of the related transaction affects neither the accounting profit nor taxable profit or loss; and
- ▶ in respect of taxable temporarily differences associated with investments in subsidiaries and associates, and interests in joint ventures where timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future;

Deferred tax assets are recognised for all deductible temporary differences, carried forward unused tax credit and unused tax losses, to the extent that it is probable that taxable profit will be available against which deductible temporary differences, carried forward unused tax credit and unused tax losses can be utilised, except:

- ▶ where the deferred tax asset in respect of deductible temporary difference which arises from the initial recognition of an asset or liability which at the time of the related transaction, affects neither the accounting profit nor taxable profit or loss; and
- ▶ in respect of deductible temporarily differences associated with investments in subsidiaries, associates, and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each interim combined balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Previously unrecognised deferred tax assets are re-assessed at each interim combined balance sheet date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset realised or the liability is settled based on tax rates and tax laws that have been enacted at the interim combined balance sheet date.

Deferred tax is charged or credited to the interim combined income statement, except when it relates to items recognised directly to equity, in which case the deferred tax is also dealt with in the equity account.

Deferred tax assets and liabilities are offset when there is a legally enforceable right for the Company to off-set current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority on:

- ▶ either the same taxable entity; or
- ▶ when the Company intends either settle current tax liabilities and assets on a net basis or to realise the assets and settle the liabilities simultaneously, in each future year in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

(l) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, excluding trade discount, rebate and sales return. The following specific recognition criteria must also be met before revenue is recognised.

Revenue from providing services

Revenue is recognized when the service is completed and is confirmed by the customer.

Royalties

Revenue is recognised on an accrual basis in accordance with the terms of the royalty agreement.

Interest

Revenue is recognised as the interest accrues (taking into account the effective yield on the asset) unless collectability is in doubt.

Dividends

Income is recognised when the Company's entitlement as an investor to receive the dividend is established.

(m) Earnings per share

Basic earnings per share amounts are calculated by dividing net profit after tax for the year attributable to ordinary shareholders of the Group (after adjusting for the bonus and welfare fund) by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share amounts are calculated by dividing the net profit after tax attributable to ordinary equity holders of the Group (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

(n) Segment information

A segment is a component determined separately by the Group which is engaged in providing products or related services (business segment) or providing products or services in a particular economic environment (geographical segment), that is subject to risks and returns that are different from those of other segments.

The Group's principal activities are to provide inspection and analysis services. In addition, these activities are mainly taking place within Vietnam. Therefore, the Group's risks and returns are not impacted by the Group's products that the Group is manufacturing or the locations where the Group is trading. As a result, the Group's management is of the view that there is only one segment for business and geography and therefore presentation of segmental information is not required.

(o) Related parties

Parties are considered to be related parties of the Company if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions, or when the Company and other party are under common control or under common significant influence. Related parties can be enterprises or individuals, including close members of their families.
