STATEMENT OF THE EXECUTIVE BOARD

The Executive Board of Khanh Hoa Sanest Soft Drink Joint Stock Company (hereinafter referred to as “the Company”) presents this statement together with the Interim Financial Statements for the third quarter of the fiscal year ending 31 December 2026.

Responsibilities of the Executive Board

The Executive Board of the Company is responsible for the preparation of the Interim Financial Statements that give a true and fair view of the financial position, the financial performance and the cash flows of the Company during the period. In order to prepare the Interim Financial Statements, the Executive Board must:

- select the appropriate accounting policies and apply them consistently.
- make judgments and estimates reasonably and prudently.
- state whether applicable accounting standards have been followed or not, and all the differences subject to any material departures are disclosed and explained in the Interim Financial Statements.
- prepare the Interim Financial Statements of the Company on a going-concern basis, unless it is inappropriate to presume that the Company will continue in business.
- design and implement effectively the internal control system to minimize the risks of material misstatements due to frauds or errors in the preparation and presentation of the Interim Financial Statements.

The Executive Board hereby ensures that all the proper accounting books of the Company have been fully recorded that disclose with reasonable accuracy at any time the financial position of the Company, and that all the accounting books have been prepared in accordance with the applicable Accounting System. The Executive Board is also responsible for safeguarding the Company's assets and consequently has taken appropriate measures to prevent and detect frauds and other irregularities.

The Executive Board confirms that the Company has complied with the aforementioned requirements in preparation of the Interim Financial Statements.

Statement of the Executive Board

In the opinion of the Executive Board, the Interim Financial Statements give a true and fair view of the financial position of the Company as of 30 September 2026, and of its financial performance and cash flows for the third quarter of the fiscal year ending 31 December 2026, in accordance with Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System and the relevant statutory requirements on the preparation and presentation of Interim Financial Statements.

For and on behalf of the Executive Board,

Nguyen Khoa Bao
Chairman
Legal Representative

INTERIM FINANCIAL STATEMENTS

For the third quarter of the fiscal year ending 31 December 2026

NOTES TO THE INTERIM FINANCIAL STATEMENTS

For the third quarter of the fiscal year ending 31 December 2026

I. GENERAL INFORMATION

1. Ownership form

Khanh Hoa Sanest Soft Drink Joint Stock Company (hereinafter referred to as the “Company”) is a joint stock company.

2. Business field

The Company’s business field is manufacturing.

3. Principal business activities

The Company’s principal business activities are to process products and functional foods made from salanganes nests.

4. Normal operating cycle

The Company’s normal operating cycle is within 12 months.

5. Structure of the Company

Subsidiary

The Company makes investments solely in its subsidiary being Sanest Khanh Hoa One Member Limited Liability Company, which has its registered office at Lot 10, Dien Phu - VCN Industrial Park, Dien Dien Commune, Khanh Hoa Province. The principal business activities of this subsidiary are the wholesale and retail of food. As at the reporting date, the Company’s ownership interest in this subsidiary is 100%; the percentage of voting rights and the percentage of benefit are equivalent to the ownership interest.

Affiliates that are not legal entities and do accounting works dependently

Affiliates	Address
Business location: 158 Ngo Gia Tu, Phan Rang – Thap Cham, Ninh Thuan	158 Ngo Gia Tu, Thanh Son Ward, Khanh Hoa Province
Shop 321 Tran Hung Dao, Phan Thiet, Binh Thuan	321 Tran Hung Dao, Binh Hung Ward, Lam Dong Province

6. Headcount

As at the end of the accounting period, the Company’s headcount is 709 (headcount at the beginning balance was 754).

7. Statement of information comparability on the Financial Statements

The corresponding figures of the previous period are comparable with those of the current period. During the period, the Company applied for the first time to the Vietnamese Enterprise Accounting System issued under Circular No. 99/2025/TT-BTC dated 27 October 2025 of the Ministry of Finance (“Circular 99”) in replacement of Circular No. 200/2014/TT-BTC dated 22 December 2014 (“Circular 200”). Accordingly, certain items in the Interim Financial Statements have been reclassified and renamed in accordance with the new regulations. The figures in the “Beginning balance” and “Previous period” columns on the Interim Financial Statements have been restated in accordance with the new classifications and names specified in the Circular 99 to ensure

Address: National Highway 1, Nam Cam Ranh Commune, Khanh Hoa Province, Vietnam

INTERIM FINANCIAL STATEMENTS

For the third quarter of the fiscal year ending 31 December 2026

Notes to the Interim Financial Statements (cont.)

comparability. These changes do not affect the Company's total assets, total liabilities, owner's equity or profit after tax.

8. Other information

The Company's shares have been listed for trading on the UPCoM market (Unlisted Public Company Market) of the Hanoi Stock Exchange under the stock code "SKH" under Decision No. 870/QĐ-SGDHN dated 17 October 2017 of the Hanoi Stock Exchange. The first trading day was 25 October 2017.

II. ACCOUNTING PERIOD AND ACCOUNTING CURRENCY UNIT

1. Accounting period

The Company's accounting period is from 01 January to 31 December annually.

2. Accounting currency unit

The accounting currency unit is the Vietnamese Dong ("VND") as transactions are primarily conducted in VND.

III. APPLICABLE ACCOUNTING STANDARDS AND SYSTEM

1. Applicable accounting system

The Company applies Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System issued under Circular No. 99/2025/TT-BTC dated 27 October 2025 ("Circular 99") and the Circulars guiding the implementation of the Vietnamese Accounting Standards of the Ministry of Finance in the preparation and presentation of the Financial Statements.

Adoption of the new enterprise accounting system

The fiscal year ended 31 December 2026 is the first fiscal year when the Company has applied the Enterprise Accounting Regime under Circular 99, replacing Circular No. 200/2014/TT-BTC dated 22 December 2014.

The transition to the application of Circular 99 is carried out using the following methods:

- For changes in accounting policies where the Circular 99 provides specific transition guidance, the Company follows that guidance.
- For changes in accounting policies where the Circular 99 does not require retroactive adjustments or simplified retroactive adjustments, the Company applies the non-retroactive method.

2. Statement of the compliance with the Accounting Standards and System

The Company's Executive Board has complied with the requirements of the Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System issued under Circular 99 as well as other Circulars guiding the implementation of the Vietnamese Accounting Standards of the Ministry of Finance in the preparation and presentation of the Interim Financial Statements.

KHANH HOA SANEST SOFT DRINK JOINT STOCK COMPANY

Address: National Highway 1, Nam Cam Ranh Commune, Khanh Hoa Province, Vietnam

INTERIM FINANCIAL STATEMENTS

For the third quarter of the fiscal year ending 31 December 2026

Notes to the Interim Financial Statements (cont.)

IV. APPLICABLE ACCOUNTING POLICIES, ACCOUNTING ESTIMATES AND RELEVANT LEGAL REQUIREMENTS

1. Accounting convention

The Financial Statements are prepared on the accrual basis (except for the information related to cash flows) using the historical cost principle and the going-concern assumption.

2. Foreign currency transactions

Transactions denominated in foreign currencies are translated at the spot exchange rate at the date of transaction. Balances of monetary items denominated in foreign currencies at the end of the accounting period (excluding foreign currency-denominated receivables for which an allowance for doubtful debts has been made) are revalued at the average buying and selling rates for transfer transactions of the Joint Stock Commercial Bank for Foreign Trade of Vietnam (Vietcombank) where the Company regularly conducts transactions.

Exchange differences arising from the transactions denominated in foreign currency during the period, are recognized in financial income (if a gain) or financial expenses (if a loss). Exchange differences arising from the revaluation of foreign currency-denominated monetary items at the reporting date are presented on the basis of net amount of total gains and total losses arising from the revaluation of such items and are recognized in financial income (if a gain) or financial expenses (if a loss).

3. Cash and cash equivalents

Cash includes cash on hand, demand deposits and cash in transit. Cash equivalents are short-term investments with a maturity of three months or less from the date of investment (calculated from the date of purchase to the maturity date), which can be readily converted into a known amount of cash and are not subject to significant risks in conversion to cash at the reporting date. Restricted cash and cash equivalents are not presented under this item, but under the items "Other current assets" or "Other non-current assets", depending on the duration of the restriction.

4. Financial investments

Held-to-maturity investments

An investment is classified as a held-to-maturity investment when the Company has the intention and ability to hold it to maturity. Held-to-maturity investments only include term deposits held to maturity for the purpose of earning periodic interest.

Held-to-maturity investments are initially recognized at cost including the acquisition cost and attributable transaction cost (such as transaction costs, fees for brokerage, among other). Accrued interest from the previous period up to the date of purchase is deducted from the cost of the investment at the time of initial recognition. After initial recognition, these investments are recognized at cost. Interest income arising after the date of purchase is recognised as financial income on an accrual basis.

Where there is conclusive evidence that part or all of the investment may be irrecoverable and the amount of the loss can be reliably determined, the loss is recognized as a financial expense for the period and deducted directly from the carrying amount of the investment. If the evidence of loss diminishes or ceases to exist in a subsequent period, the previously recognized loss is reversed and recognized in financial income during the period.

Investments in subsidiaries

KHANH HOA SANEST SOFT DRINK JOINT STOCK COMPANY

Address: National Highway 1, Nam Cam Ranh Commune, Khanh Hoa Province, Vietnam

INTERIM FINANCIAL STATEMENTS

For the third quarter of the fiscal year ending 31 December 2026

Notes to the Interim Financial Statements (cont.)

A subsidiary is an entity controlled by the Company. Control is achieved when the Company has the ability to control the financial and operating policies of the investee in order to obtain economic benefits from the activities of that enterprise.

Initial recognition

Investments in subsidiaries are initially recognized at costs, including the cost of acquisition or capital contributions plus costs directly attributable to the investments (i.e. transaction cost, commission, consulting, auditing fees, legal fees, bank charge, etc.). In the specific case where the Company borrows funds to make investments in subsidiaries, interest expenses are recognised as financial expenses and are not capitalised. Where the investment is made through non-monetary assets, the cost of the investment is recognized at the fair value of the non-monetary assets at the time of occurrence. After initial recognition, these investments are recognized at cost.

Profits from periods prior to the acquisition of the investment are accounted for as a reduction in the value of that investment. Profits from periods following the acquisition of the investment are recognised as financial income.

Provisions for impairment of investments in subsidiaries

Provisions for impairment of investments in subsidiaries are recognised when a subsidiary incurs a loss or the investment is impaired, resulting in the Company being likely to incur a loss of capital. The amount of the provision is calculated by multiplying the Company's percentage of actual paid-up share capital in the subsidiary at the end of the accounting period by the difference between the owners' actual investment and the subsidiary's owner's equity at the same date.

Any increase or decrease in the provision for investment losses in subsidiaries that is required to be recognised at the end of the accounting period is recognised as a financial expense.

5. Receivables

Receivables are recognized at their carrying amounts less allowances for doubtful debts.

The classification of receivables as trade receivables and other receivables is made according to the following principles:

- Trade receivables reflect receivables of a commercial nature arising from purchase and sale transactions between the Company and customers who are independent to the Company (including receivables arising from the sale of exports on consignment to other entities).
- Other receivables reflect receivables of a non-commercial nature that do not arise from purchase and sale transactions.

Receivables are tracked in details by subject, term and original currency. The trade receivables and other receivables are classified as short-term and long-term items in the Statement of Financial Position on the basis of their remaining term as at the end of accounting period.

Allowance is made for each doubtful debt on the basis of the ages of debts after offsetting against liabilities (if any) or estimated loss as follows:

- For overdue debts:
 - 30% of the value for receivables overdue for more than 6 months but less than 1 year.
 - 50% of the value for receivables overdue for 1 year to less than 2 years.
 - 70% of the value for receivables overdue for 2 years or more but less than 3 years.
 - 100% of the value for receivables overdue for 3 years or more.
- For doubtful debts: Allowance is made on the basis of the estimated loss.

Increases or decreases in the obligatory allowance for doubtful debts as of the reporting date are recorded into general and administrative expenses.

KHANH HOA SANEST SOFT DRINK JOINT STOCK COMPANY

Address: National Highway 1, Nam Cam Ranh Commune, Khanh Hoa Province, Vietnam

INTERIM FINANCIAL STATEMENTS

For the third quarter of the fiscal year ending 31 December 2026

Notes to the Interim Financial Statements (cont.)

6. Inventories

Inventories are recognized at the lower of cost and net realizable value.

Cost of inventories is determined as follows:

- Materials and supplies: Costs comprise costs of purchases and other directly attributable costs incurred in bringing the inventories to their present location and conditions.
- Work-in-process cost: comprises only the costs of primary materials and supplies, secondary materials and supplies.
- For finished goods: Costs comprise costs of materials, direct labor and directly relevant general manufacturing expenses allocated on the basis of normal operations.

Inventory costs are determined in accordance with the weighted average method and recorded in line with the perpetual method.

Net realizable value is the estimated selling price of inventories in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Allowance for devaluation of inventories is recognized for each type of inventories when their costs exceed their net realizable values. Increases or decreases in the obligatory allowance for devaluation of inventories as of the reporting date are recorded into costs of sales.

Materials, equipment and spare parts with a holding period exceeding 12 months or more than one normal operating cycle, and products in process with a production or turnover period exceeding one normal operating cycle, shall not be presented as inventories but shall be presented as non-current assets in the Statement of Financial Position.

7. Deferred expenses

Deferred expenses reflect actual expenses incurred (including prepaid and unpaid expenses) relevant to financial performance in several accounting periods. These deferred expenses are allocated into operating costs of the relevant accounting periods.

In the Statement of Financial Position, deferred expenses are classified as short-term (with the maximum allocation period of 12 months or within a normal operating cycle) and long-term (with the allocation period of more than 12 months or longer than a normal operating cycle). Long-term deferred expenses shall not be re-classified as short-term when preparing the Financial Statements.

The Company allocates deferred expenses into operating costs for each period, using an appropriate allocation method and criteria on the basis of the nature and extent of each type of expenses. The timing and method of allocating deferred expenses are as follows:

Tools and supplies

The tools and supplies put into use or leased out in connection with business operations in multiple accounting periods are recognized as deferred expenses and are allocated into operation costs on a straight-line basis over their estimated useful lives (3 years for maximum).

Business advantage

The business advantage arising from the privatisation of the state-owned enterprise is recognised at the value determined in the Enterprise Valuation Report dated 30 June 2016. The business advantage

KHANH HOA SANEST SOFT DRINK JOINT STOCK COMPANY

Address: National Highway 1, Nam Cam Ranh Commune, Khanh Hoa Province, Vietnam

INTERIM FINANCIAL STATEMENTS

For the third quarter of the fiscal year ending 31 December 2026

Notes to the Interim Financial Statements (cont.)

is allocated to expenses for the maximum period of 10 years from the date the Company commenced operations as a joint-stock company.

Insurance premium advances

Prepaid insurance premiums for fire and explosion insurance, civil liability insurance, motor vehicle insurance, property insurance and other types of insurance, paid in advance for multiple accounting periods, are recognised as deferred expenses and allocated to operating costs on a straight-line basis over the insurance period (12 months).

8. **Tangible fixed assets**

Tangible fixed assets are stated at historical cost less accumulated depreciation. The historical cost of tangible fixed assets comprises all costs incurred by the Company to acquire the fixed asset up to the date on which the asset is ready for use.

Subsequent costs are added to historical cost of fixed assets only if it is probable that future economic benefits associated with the asset will flow to the Company. Subsequent costs that do not meet the above conditions will be recognized as operating costs during the period. Costs of routine repairs and maintenance of tangible fixed assets are recognized into operating costs during the period in which they are incurred. For fixed assets that must undergo periodic repairs and maintenance in accordance with technical requirements, significant expenses incurred for repairing and maintaining these fixed assets are recognized as deferred expenses and amortized gradually into operating costs until the next routine repair or maintenance period.

When a tangible fixed asset is sold or disposed of, its historical cost and accumulated depreciation are written off, and any gain or loss arising from the disposal is recognised as income or an expense during the period.

Tangible fixed assets are depreciated on a straight-line basis over their estimated useful lives. The useful life and amortization method are reviewed at least at the end of every fiscal year and adjusted if necessary. The depreciation year for the various types of tangible fixed assets are as follows:

<u>Type of fixed assets</u>	<u>Number of years</u>
Buildings and structures	05 - 25
Machinery and equipment	04 - 12
Vehicles	06 - 10
Administrative equipment and tools	03 - 05
Other fixed assets	04 - 10

9. **Intangible fixed assets**

Intangible fixed assets are stated at initial cost less accumulated amortisation.

The initial cost of intangible fixed assets comprises all costs incurred by the Company to acquire the asset up to the date on which it is ready for use. Subsequent costs attributable to intangible fixed assets are recognized as operating costs during the period in which they are incurred, unless such costs are directly attributable to a specific intangible fixed asset and increase the future economic benefits expected to be derived from that asset.

When an intangible fixed asset is sold or disposed of, its initial cost and accumulated amortization are written off, and any gain or loss arising from the disposal is recognised as income or an expense during the period.

KHANH HOA SANEST SOFT DRINK JOINT STOCK COMPANY

Address: National Highway 1, Nam Cam Ranh Commune, Khanh Hoa Province, Vietnam

INTERIM FINANCIAL STATEMENTS

For the third quarter of the fiscal year ending 31 December 2026

Notes to the Interim Financial Statements (cont.)

The useful life and amortization method are reviewed at least at the end of every fiscal year and adjusted if necessary.

The Company's intangible fixed asset is computer software.

Costs relating to computer software that are not an integral part of the associated hardware are capitalised. Historical cost of computer software comprises all costs incurred by the Company up to the date the software is put into use. Computer software is amortized on a straight-line basis over five years.

10. Construction in progress

Construction in progress costs reflect costs directly attributable to assets under construction and machinery and equipment being installed, including capitalised borrowing costs in accordance with Vietnamese Accounting Standards No. 16 - Borrowing Costs ("VAS 16"). These assets are recorded at historical cost and are not depreciated until they are available for use. Upon completion, all costs are transferred to the appropriate asset items based on their intended use, including tangible fixed assets, intangible fixed assets, investment property or inventories, and depreciation/amortization commences when the assets are available for use.

Costs of upgrades and renovations of fixed assets in progress are accounted for separately and, upon completion, are added to the historical cost of the corresponding fixed assets.

Expenses on repairing and maintaining fixed assets periodically during each period are recognised as production and operating costs for the period. For fixed assets that must undergo periodic repairs and maintenance in accordance with technical requirements, the related costs are accumulated separately. Upon completion, the expenses are recognized as deferred expenses and amortized to operating expenses over the period until the next scheduled repair or maintenance.

11. Payables and accrued expenses

Payables and accrued expenses are recognized for amounts to be paid in the future in respect of merchandise and services received. Accrued expenses are recognized based on reasonable estimates of the amounts payable.

Payables are classified as trade payables, accrued expenses and other payables based on the following principles:

- Trade payables represent liabilities of a commercial nature arising from the purchase of goods, services or assets, where the suppliers are independent third parties of the Company, including payables for import through entrustment.
- Accrued expenses reflect amounts payable for merchandise or services received from suppliers or provided to customers during the period but not yet actually paid due to insufficient supporting documents, records or accounting records; amounts payable to employees in respect of holiday pay; and other production and operating costs that must be accrued in advance (such as costs during seasonal production stoppages and interest expenses).
- Other payables represent liabilities of a non-commercial nature that do not arise from the purchase, sales of goods or provisions of services.

Payables and accrued expenses are classified as current or non-current on the Statement of Financial Position based on their remaining maturity at the reporting date.

12. Payables for dividends and profit distributions

Dividends are recognized as liabilities when the Company has no right to refuse its obligation to pay dividends to shareholders under the provisions of securities law.

KHANH HOA SANEST SOFT DRINK JOINT STOCK COMPANY

Address: National Highway 1, Nam Cam Ranh Commune, Khanh Hoa Province, Vietnam

INTERIM FINANCIAL STATEMENTS

For the third quarter of the fiscal year ending 31 December 2026

Notes to the Interim Financial Statements (cont.)

Upon recognition of the payment obligation, cash dividends payable are recorded under “Payables for dividends and profit distributions” and presented as liabilities on the Statement of Financial Position.

13. Owner's equity

Owner's capital

The owner's capital is recorded according to the actual amounts invested by the shareholders.

14. Profit distribution

Profit after tax is distributed to the members after appropriation for funds under the Charter of the Company as well as legal regulations and after getting approval from the General Meeting of Shareholders.

The distribution of profits to the shareholders is made with consideration toward non-cash items in the retained profit that may affect cash flows and payment of dividends such as profit due to revaluation of assets contributed as investment capital, profit due to revaluation of monetary items, financial instruments and other non-cash items.

15. Recognition of revenue and income

Revenue from sales of merchandise and finished goods

Revenue from sales of merchandise, finished goods shall be recognized when the Company fulfils its contractual obligations by transferring control rights of merchandise, finished goods to customers and all of the following conditions are satisfied:

- The Company transfers most of the risks and benefits incident to the ownership of merchandise or products to customers.
- The Company no longer retains the rights to manage the merchandise and products as an owner, nor does it retain control over them.
- The amount of revenue can be measured reliably. When the contracts stipulate that buyers have the right to return merchandise, products purchased under specific conditions, the revenue is recorded only when those specific conditions no longer exist and the buyers retain no right to return merchandise, products (except for the case that such returns are in exchange for other goods or services).
- The Company received or shall probably receive the economic benefits associated with sale transactions.
- The costs incurred in respect of the sale transaction can be measured reliably.

Revenue from provision of services

Revenue from provision of services shall be recognized when the Company fulfils its contractual obligations and all of the following conditions are satisfied:

- The amount of revenue can be measured reliably. When the contract stipulates that the buyer is entitled to return the services provided under specific conditions, the revenue is recognized only when these specific conditions no longer exist and the buyers retain no right to return the services provided.
- The Company received or shall probably receive the economic benefits associated with the provision of services.
- The stage of completion of the transaction at the end of reporting period can be measured reliably.
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

KHANH HOA SANEST SOFT DRINK JOINT STOCK COMPANY

Address: National Highway 1, Nam Cam Ranh Commune, Khanh Hoa Province, Vietnam

INTERIM FINANCIAL STATEMENTS

For the third quarter of the fiscal year ending 31 December 2026

Notes to the Interim Financial Statements (cont.)

When services are provided over several accounting periods, revenue is recognized by reference to the stage of completion based on the volume of work performed at the reporting date.

Interest

Interest income is recognized based on the term and the effective interest rate applicable in each particular period.

Profit received

Profit received is recognised when the Group is entitled to receive profits from investment activities. For investments in other entities, the recognition date is decided in accordance with the Law on Enterprises and the Charter of the investee. Only profit distributions attributable to the period after the investment date are recognized in financial income. Amounts attributable to the period before the investment date are deducted from the costs of the investment.

16. Revenue deductions

Revenue deductions include trade discounts, sales allowances and sales returns. These items are tracked separately and transferred to revenue from sales of goods and provisions of services to determine net revenue for the reporting period.

Where products, merchandise or services were consumed in previous periods but trade discounts, sales allowances or sales returns arise in a subsequent period, the Company reduces revenue in accordance with the following principle:

- If the revenue deductions arise prior to the date of issue of the Financial Statements: this constitutes a subsequent event and is recognised as a reduction in revenue in the Financial Statements for the reporting period.
- If the revenue deductions arise after the date of issue of the Financial Statements: they are recognised as a revenue deduction for the period in which they arise.

17. Borrowing costs

Borrowing costs are interest and other costs that the Company incurs in connection with the borrowing.

Borrowing costs are recognized as an expense during the period when they are incurred, unless they are qualified for capitalized borrowing costs.

Borrowing costs that are directly attributable to the construction or the production of an asset in progress, which takes a substantial period of time (over 12 months) to get ready for intended use or sales, are capitalized as part of that asset when it is probable that they will result in future economic benefits to the Company and the borrowing costs can be reliably measured.

The capitalization of borrowing costs commences when all three of the following conditions are concurrently met:

- Expenditure for the construction or production of the asset have been incurred;
- Borrowing costs have been incurred; and
- Activities necessary to prepare the asset for its intended use or sale are being undertaken.

Capitalization is suspended during periods when the construction or production process is abnormally interrupted. Capitalization stops when substantially all activities necessary to prepare the asset for its intended use or sale have been completed.

KHANH HOA SANEST SOFT DRINK JOINT STOCK COMPANY

Address: National Highway 1, Nam Cam Ranh Commune, Khanh Hoa Province, Vietnam

INTERIM FINANCIAL STATEMENTS

For the third quarter of the fiscal year ending 31 December 2026

Notes to the Interim Financial Statements (cont.)

For a specific borrowing for purpose of construction or production of an asset in progress, the capitalized borrowing costs are the actual borrowing costs incurred, less any investment income on the temporary investment of those borrowings.

For general loans, part of which is used for the construction or production of assets under construction, the borrowing costs to be capitalised are determined in proportion to the capitalisation rate applicable to the weighted average cumulative costs incurred in the construction or production of that asset. The capitalisation rate is calculated as the weighted average interest rate on outstanding borrowings during the period, excluding separate borrowings specifically intended for the creation of a specific asset.

18. Expenses

Expenses are those that result in outflows of the economic benefits and are recorded at the time of transactions or when incurrence of the transaction is reliable regardless of whether payment for expenses is made or not. Expenses are recognized even if they are not yet due for payment, provided that their incurrence is reasonably certain in order to ensure the principle of prudence and capital preservation

When the Company recognizes revenue, it shall recognize the cost corresponding to generating that revenue. Such cost included those incurred in the period in which the revenue was generated together with cost incurred in the previous periods or accrued expenses related to the revenue generated in that period. Where the matching principle conflicts with the prudence principle, expenses are recognised based on the nature of the transaction and Vietnamese Accounting Standards to ensure that the transaction is reflected fairly and reasonably.

19. Corporate income tax

The Company's corporate income tax accounting policy is implemented in accordance with the provisions of the Corporate Income Tax Law No. 67/2025/QH15 dated 14 June 2025, Decree No. 320/2025/NĐ-CP dated 15 November 2025 of the Government detailing certain provisions of the Law on Corporate Income Tax, guidance documents issued by the Ministry of Finance, and other relevant legal provisions. Corporate income tax includes current income tax and deferred income tax.

Current corporate income tax

Current income tax is the amount of corporate income tax payable, calculated on the basis of assessable income during the year and the current corporate income tax rate. The difference between assessable income and accounting profit arises from adjustments to temporary differences between tax and accounting treatment, non-deductible expenses, non-taxable income and losses carried forward.

On a quarterly basis, the Company determines and recognizes the provisional corporate income tax payable. At the end of the fiscal year, the Company determines the actual corporate income tax payable based on the final tax return and adjusts any differences with the provisional amounts recognized during the year.

Deferred income tax

Deferred income tax is the amount of corporate income tax payable or refundable due to temporary differences between book values of assets and liabilities serving the preparation of the Financial Statements and the values for tax purposes.

KHANH HOA SANEST SOFT DRINK JOINT STOCK COMPANY

Address: National Highway 1, Nam Cam Ranh Commune, Khanh Hoa Province, Vietnam

INTERIM FINANCIAL STATEMENTS

For the third quarter of the fiscal year ending 31 December 2026

Notes to the Interim Financial Statements (cont.)

Deferred income tax liabilities are recognized for all the temporary taxable differences, except to the extent that they arise from the initial recognition of an asset or liability in a transaction that, at the time of transaction, affect neither accounting profit nor taxable income.

Deferred income tax assets are recognized for all deductible temporary differences to the extent that future taxable income will be available against which the deductible temporary difference can be utilized. Deferred income tax assets are also recognized for unused taxable losses and tax credits to the extent that it is probable that future taxable profit will be available against which they can be utilized. Deferred income tax assets and deferred income tax liabilities arising from transactions recognized directly in owner's equity are not recognized into deferred income tax expense.

The carrying amount of deferred corporate income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be recovered.

Deferred income tax assets and deferred income tax liabilities are measured using the tax rates that are expected to apply in the fiscal year when the assets are recovered or the liabilities are settled, based on the effective tax rates and tax laws that have been enacted or substantively enacted by the reporting date.

When preparing the Statement of Financial Position, the Company offsets deferred tax assets and deferred tax liabilities if:

- The Company has the legal right to offset current income tax assets against current income tax liabilities; and
- Deferred income tax assets and deferred income tax liabilities are relevant to corporate income tax levied by the same taxation authority on either:
 - The same taxable subjects; or
 - The Company has intention to pay current income tax liabilities and current income tax assets on a net basis or recover tax assets and settle tax liability simultaneously in each future period in which significant amounts of deferred tax liabilities or deferred tax assets are expected to be settled or recovered.

20. Related parties

A party is considered a related party of the Company if that party has the ability to control the Company or exercise significant influence over the Company, or has power to participate in financial and operating policy decisions of the Company. A party is also considered a related party of the Company if both parties are subject to common control.

Related parties of the Company include:

- The parent company and subsidiaries within the same group.
- Individuals with direct or indirect voting rights and thereby have significant influence over the Company, including members of the Board of Directors and their close family members.
- Key management personnel with the authority and responsibility to plan, manage and control the Company's operations, including the Executive Board, the Supervisory Board, other management members and their close family members.
- Entities over which individuals referred to above are able to exercise sufficient influence through direct or indirect ownership of voting rights, including entities owned by key management personnel or major shareholders of the Company and entities that share key management personnel with the Company.

KHANH HOA SANEST SOFT DRINK JOINT STOCK COMPANY

Address: National Highway 1, Nam Cam Ranh Commune, Khanh Hoa Province, Vietnam

INTERIM FINANCIAL STATEMENTS

For the third quarter of the fiscal year ending 31 December 2026

Notes to the Interim Financial Statements (cont.)

Close family members of an individual are those who may cause influence or be influenced by that individual in their dealings with the Company, including the individual's parents, spouse, children and siblings.

A related party transaction is a transfer of resources, services or obligations between related parties, regardless of whether a price is charged.

In considering if parties are related, attention is directed to the substance of the relationship and not merely its legal form.

21. Segment reporting

A business field is a distinguishable component of an enterprise engaged in the production or supply of individual products or services, or a group of related products or services, for which the field has economic risks and rewards distinct from those of other business fields.

A geographical segment is a distinguishable segment of an enterprise engaged in the production or supply of products or services within a specific economic environment, which bears economic risks and rewards distinct from those of business segments operating in other economic environments.

The nature of the risks and economic benefits is the primary basis for determining whether the primary segment report is prepared in the business field or by geographical area. If risks and rates of return are primarily influenced by differences in products and services, the primary segment report is prepared in the business field and the secondary segment report by geographical area. Conversely, if risks and rates of return are primarily influenced by differences in geographical areas, the primary segment report is prepared by geographical area and the secondary segment report by business field. The Company's organisational structure, management and internal financial reporting system form the primary basis for determining whether a segment report is primary or secondary.

A segment must be reported if the majority of its revenue derives from external sales of goods and provisions of services and it meets at least one of the following thresholds:

- The segment's revenue accounts for 10% or more of the gross revenue of all segments.
- Segment financial performance accounts for 10% or more of the total financial performance of all profitable segments or the total financial performance of all loss-making segments (whichever is greater in absolute terms).
- The segment's total assets account for 10% or more of the total assets of all segments.

Information on the segment is prepared and presented in accordance with the accounting policies applied to the preparation and presentation of the Company's Interim Financial Statements.
